

Council To Enforce Dog By-law Five Year Plan Ac ep ed

The regular meeting of the Strathmore Town Council was held Tuesday night, with all present. At the request of the Provincial Government, the council decided on what public works service they wanted offered in the five year plan. There had a choice of (a) 1 block of pavement for a street (280 square yards) plus 1914 sidewalks, or (b) 4270 lineal feet of sidewalks. The first option was accepted and main street chosen as the street. The sidewalk locations will be decided later. This information must be in the Department by January 25. The \$10 per capita allotment for recreation under the same plan was not decided upon.

The town must determine the elevation for paving and prepare the job grade for the paving the sidewalks, and determine the grade and prepare the base for the sidewalk. The town must maintain sidewalks after work is completed.

Dr Thompson and Mr Davies of the Drumheller Health Unit were in attendance to discuss various health problems within the town. Policies were discussed and it was mutually decided that local authorities and the Health unit would work closely together in the future.

The council will witness a demonstration of new fire equipment by a Calgary firm in about 10 days. Council agreed to purchase 4x6's for the Lyons road and to place suitable street signs to be placed at intersections indicating address locations.

Council will promote the possibility of obtaining a Government building for Strathmore. Mr. P. Woolfson and Mr. A. Bell will be contacted.

It was again decided to enforce the present dog by-law. The by-law No. 303 regarding dogs running at large is as follows.

(1) For the purpose of this by-

law, the term running at large shall refer to any dog not under the immediate and effective control of its owner whether on the premises of his owner or otherwise.

(2) No person shall, after the passing of this by-law, suffer or permit any dog of which he is the owner to run at large within the limits of the Town of Strathmore.

(3) Any person, officer, councillor or any person or persons duly authorized or approved by the council for such purposes may immediately destroy all dogs found running at large.

They decided however to hold dogs for 72 hours before destroying the animals and according to previous legislation there would be a fine levied.

During the festive season, the Strathmore residents took much pride in the appearance of their homes and many decorated their houses inside and out with a good number of Christmas lights.

Apparently there were those who didn't appreciate them too much and they proceeded to help themselves to the bulbs. One resident reported that he had had 28 lights this year while others said that they had also lost a good number. The Town also lost some of their bulbs from the tree they erected on main street.

The resident that lost the 28 bulbs found two missing one morning and the next morning the culprit had made off with 24.

There is always a few who fail to understand the true meaning of Christmas.

MONEY FOR RECREATION

It was recently announced by government grant will supply them. A. R. Parrish, Provincial Secretary, said grants based on a five dollar per capita basis for all more. We have much to offer, and Alberta communities of one hundred or more population, except Calgary and Edmonton, to assist in the acquisition of recreational facilities, which can be proud of the facilities, will be made available this year as the second part of the Alberta Government's five year program.

This is welcome news to all concerned. It is difficult for towns and villages in this category to raise money to have sufficient recreation facilities for their young people, possibly the greatest single factor in combating juvenile delinquency.

We are acquainted with a town in Alberta, not too small in size, that hasn't as much as a skating rink for their children. They have no public baseball grounds, no swimming pool for any one or two of the things other towns have to give their children a place to spend idle hours to advantage.

There is a curling rink, but too often, the harm in a child is done before they are old enough to participate in that sport. What is the answer? We are told that the boys have resorted to carrying six knives, pieces of bicycle chains and the like. They defy the local authorities and who is to blame. Possibly circumstances have prevented progressive thinking on the part of the adults, but what a price to pay. It is hoped that this dome.

Wednesday the children exchanged gifts in the various rooms and prepared for the long holiday. Many young people came home from Calgary on Christmas Eve and many families were happily reunited for the holidays.

Elaine Madson spent a few days in the Bannock hospital. Dorothy and Edwin Reiffenstein went to Toronto to spend Christmas with Mr. and Mrs. Raymond Reiffenstein and little son, and will also visit their cousin Bob Toogood in Uxbridge.

Dr. and Mrs. John Toogood and family of Edmonton visited at Red Cliff Reiffenstein home on Dec. 26. They were accompanied by an interesting party: a young Hungarian who fled from Hungary during the revolution after taking one year of Agriculture in the University at Budapest. He is now completing his course in Edmonton.

Mr. and Mrs. Charles Toogood, Pat and Norma also were guests. Mr. and Mrs. Cherry of Calgary, and Mr. and Mrs. L. Reiffenstein of Bannock came on Sunday to the Reiffenstein home.

Many celebrated their birthdays in December, among them: Roy and Mrs. Blake, Donald Blake, Laurie and Charlie Reiffenstein. Mr. and Mrs. Paul Reinhold and family were at Reinhold's Christmas Eve.

Mr. and Mrs. E. Wright's youngest son Norman was recently given a Testamental dinner by the church for two years' work in the mission field. Their eldest son, Edgar, works for the Boeing Aircraft Co. in Seattle has recently been granted leave of absence to complete his training in Electrical Engineering. He will then obtain the degree of Ph. D. of one of a very few such granted in the U. S.

The Lions Club has generously offered to pay for the new Santa Claus suit obtained for the school. Christmas services at the church were very well attended. These included the candlelighting service on Dec. 20; a twilight service on Christmas Eve, morning service on Dec. 25 and 27 and the Sunday School program Dec. 27. Special music was given by the choir at the church services, and Miss Geraldine Slemko also sang a solo at the Sunday School program.

A banded duck was shot by Barry Moffat on Earl Johnston's land in October and was sent to Washington, D. C. The mallard duck had been banded at the Tule Lake National Wildlife Refuge at Tule Lake, Cal. Sept. 7th, 1957.

**Much Damage
In Farm Fire**
A combination machine shed and
also on the Keith McDermott farm
located one mile east of Cardston
burned to the ground in about
three quarters of an hour, Monday
morning. The blaze which was
thought may have started from a
hot boiler in the shop was first
noticed at 11 a.m. and it was all
over by 11:45.
Quick action saved a combine
and a big truck, but much was left
behind to be completely destroyed
by the flames. It included a trac-
tor, hay, wood, grain, building
equipment, all the farm tools and
numerous other farm items were
lost.
No other buildings were in dan-
ger, but the fire destroyers were
concerned about two fuel tanks, one
of which was only 50 feet away
but they were able to keep the
flames away.
The building was a 40 x 56
frame building. It was covered in
part by insurance.
The McDermotts have had their
house in 1955. They lost a
bar of about the same size.

**TWO WHEATLAND
COUNCILORS ON TOUR
IN ILLINOIS**
Emile Carmichael, Rockyford and
Jack McArthur, Glendon, Coun-
cillors in the Wheatland of Win-
nipeg, left by plane Sunday, with 33
other Alberta councillors for Illinois
on a four day tour. They will visit
Caterpillar Tractor Co. plants at
Peoria, Decatur and Moline in
that state.
The tour sponsor is Sten-
drew Laid, Calgary, South-
western Alberta "Can" agent which
costs about 14 percent as group
guides.
The purpose of the tour, one of
a representative group of
municipal officials in southern
Alberta is to make councillors
familiar with the types of heavy
equipment machinery available,
what the machines will do and how
they can be applied to maintaining
and new construction of roads.

**Agric. Society
To Hold Sale**
The directors of the Drumheller
Agricultural Society held a meet-
ing Monday afternoon, and it was
decided that their organization
should hold a livestock sale on
about June 30, 1960, at the Drum-
heller Auction Mart.
They are desirous of good qual-
ity farm and range cattle and
horses. The sale will be open to all
breeds and they are in hopes that
they will sell 150 head. This is the
first attempt of such a sale.
Applications forms will be avail-
able at least two months in ad-
vance of sale date. A definite date
will be announced later.

**No Provincial
Building Here**
Mayor E. L. Gray and M.L.A. Geo.
Hart had an interview in Calgary
with Hon. Gordon Taylor, Minis-
ter of Public Works for the Pro-
vince of Alberta, to probe the pos-
sibility of obtaining a Provincial Gov-
ernment building for Strathmore.
It was the delegation's thought
that it would make available offi-
ces for the Dist. Agricultural
Extension Service, the Health Unit
and the Strathmore Health Unit.
They were informed by the Min-
ister that provincial authorities
have found that it is not econom-
ical to build their own buildings
for such purposes in towns the
size of Strathmore, as they found
that they can rent cheaper.

**Strathmore May
Get New Post O.**
According to local sources of in-
formation, Strathmore may get a
new Post Office next winter.
Postmaster Rowe Martin stated
last week that his superiors have
decided that the present premises are
inadequate for the amount of mail
handled in his office. They are at
present renting space in the
Kinsmen Hotel building.
There is not enough wall space to
provide the required number of
boxes, and that they are cramped
for space in the office proper.
The building will possibly be
built under the winter works pro-
gram. The lots required have not
been purchased nor has the loca-
tion been decided upon.

No Decision On Home For Aged

Members of the Senior Citizens Home Board, which has been organized to build a home for the aged, have decided to postpone their decision on the matter until the next meeting. The board, which is made up of representatives from Cluny, Standard, Rockyford and Strathmore, met with the MD Council of Wheatland Tuesday evening.

The MD Council had tabled the matter of the construction of the home on July 14, 1959, and the delegation was waiting them to reopen the matter so further negotiations could be made before that date regarding the purchase of the site. More on this in another story in this paper.

E. I. Gray of Strathmore, speaking for the delegation, asked that they consider bringing it on the table again and B. Larsen of Standard made the motion that the land be bought with each local government paying the purchase price on an assessment basis.

After the delegation left, the board decided to postpone their decision on the matter until the next meeting. The board, which is made up of representatives from Cluny, Standard, Rockyford and Strathmore, met with the MD Council of Wheatland Tuesday evening.

A number of the council members expressed their views to the effect that it should be on a per capita rather than an assessment basis which would make a difference.

RESULTS OF COMINCO DEMONSTRATION FARMS ARE ANNOUNCED

During the past season, five Alberta farmers suc-
cessfully with Cominco District Supervisors in extensive
field scale demonstrations with Elephant Brand
fertilizer. The results of this demonstration work using the
application rates on cereals, hayland and erosion slopes
are summarized below.

**LETHBRIDGE
DEMONSTRATION
FARM No. 1**
L. L. "Tom" Linder

Barley on stable land was
fertilized with 150 lbs. of
Elephant Brand Nitrate and 35
lbs. of Elephant Brand 11-45-0
fertilizer. This application gave
an increased yield of 35.5
bushels of barley over the un-
fertilized check strip, resulting
in a net profit of \$64.00 per
acre after paying the cost of
the fertilizer.

On this same farm a seed
crop of Summit Crested Wheat
was fertilized with 150
lbs. of Elephant Brand 11-45-0
fertilizer. An increased yield
of 150 lbs. of clean seed per
acre resulted from this fertil-
izer application. Valuing Wheat
at 25 cents per bushel, the net
of fertilizer returned an addi-
tional \$17.00 per acre and a net
profit after deducting the cost
of the fertilizer of \$14.00 per
acre.

**CALGARY
DEMONSTRATION
FARM No. 2**
Highland Stock Farm — Thomas Gault

A stand of brown-stalked
wheat was fertilized with
Elephant Brand 11-45-0 at 150
lbs. per acre. The fertilizer
application increased the yield
117 tons per acre, showing
an increased profit of \$16.75
after deducting the cost of the
fertilizer.

Legacy oats seeded on 1st
year stable gave an increased
net return of \$10.50 per acre
after a treatment of Nitrate
followed by 50 lbs. per acre
of 11-45-0.

application gave higher profits.
Applications of 150, 200 and
250 pounds of Elephant Brand
11-45-0 gave an increased net
return of \$6.45, \$14.00 and
\$28.50 respectively.

be built this year between Highway No. 9 and 7. Carried over to the next year. It was directed to the Council to have a wing installed at the Christie corner on the C.P.R. railway crossing W. Sec. 2, 24-28 4, Carries.

Councillors McArthur, Chambers, Heberting and Miller submitted their 1960 gravel estimates.

Considerable discussion ensued around the matter of having gravel for the future. It was proposed that we purchase a fleet of tandem drive gravel trucks and do our own hauling. The figures from the County of Volcan seemed to indicate that a substantial saving could be made by so doing and they have had their own trucks and operated same for the past four years. It was pointed out that the initial capital costs would run into \$60,000 for same and no decision was made on the matter.

The meeting adjourned at 4:45.

CHEMICALS FOR WILD OAT CONTROL
The National Weed Committee has recommended for sale in Canada two chemicals for wild oat control. They are Atrazine, a pre-emergent treatment, and Carbyne, a post-emergent spray similar to 2,4-D. It is suggested that these chemicals will cost about \$7.00 per acre this year. Atrazine is applied on the seedbed and around the seed and the same day to a depth of about three inches, then the grain is planted. This chemical prevents secondary growth. Carbyne is applied after the grain has emerged and is still mostly for the control of wild oats in a crop providing they are sprayed very early in the two to three leaf stage (usually 4 to 9 days after the wild oats come up). The kill is not immediate, but the young wild oats stop growing. Carbyne is for trial use on wheat, barley and rye. Since these chemicals are expensive and still mostly for the control of wild oats, they are an additional weapon for the farmer's arsenal.

Progress Seen At U. Church
The annual congregational meeting of the United Church was held recently with a good attendance. Provided over by the minister, and with Mr. E. Hamilton as church secretary. An upward trend was shown in all departments of church work, with the various organizations reporting an increase in membership and activity for the year. Six youth organizations reported a marked increase in attendance during the year, which now totals the basement congregation. Twenty-two new members had joined the church. The WA organizations had a very successful year and had raised a sum of \$1400. The Missionary and Maintenance allocation of \$1000 was reached, with the WMS raising \$150. The most notable improvement for the year was the installation of the rest rooms in the church.

LOCAL GOVERNMENT

It seems that people have been well satisfied with the way the Strathmore and the Municipality have been operating. The only two former members of the Strathmore Board who were running in the elections were again returned to office for another term, and the two former Whistlers, who were returned to office, were also returned to office.

That confidence you have shown in them must be a result of the fact that they have been doing a good job, and that they should be justly proud.

The Town of Strathmore voted much more from railway to its annual meeting for the year 1959-60 than it had in previous years.

A late report from each Council member will play the first game of the Strathmore's Provincial playoffs in Strathmore on Monday night, Feb. 22. Cost Of Two Block Survey Decreased- Council To Investigate

The regular meeting of the City Council was held Tuesday night with all members present.

All council will act on the report of the City Engineer on the survey of the two blocks at the corner of 1st and 2nd Avenues, which can be made up to March 15th. To date there are none.

Council complained about the report of the City Engineer. The report charged that the survey was done in blocks F and G. Part of West 1st St. and 2nd Ave. was in the town. The total amount of the bill was \$447. The following information was taken direct from the letter of explanation showing the breakdown of that amount:

Survey and one man. 1 1/2 days at \$65 totals \$97.50. Surveyor and two men. 7 days at \$80 totals \$560. 21 hours at \$12.50 totals \$262.50. Office overhead, depreciation, insurance, phone calls, etc. 1 1/2 days at \$10 per day totals \$15.00. Transportation, 700 miles at 14c totals \$104.00. Printing of plans \$7.00. Standard survey fees \$240.00. Iron pins and stakes \$8.00. Drafting and calculations 17 1/2 hours at \$4 totals \$70.00.

The better explained that it was difficult to acquire certain evidence on the ground and to record it with other evidence found.

The firm agreed to reduce the amount on field work by 1 1/2 days, the balance accordingly, reducing the bill by \$141.25 for field work and \$100 miles or \$136.00 for transportation, making the net bill \$79.50.

Council was not ready to accept this amount as it is higher than other work in that line done for the town. There will be further investigation.

The Heinrich Bros. Rockford want property to construct a feed mill in Strathmore. This was turned over to Council. Council will to negotiate with them.

The budget was prepared in the rough, and councillors were asked to study same before meeting. The school question is not in as yet so an accurate figure could not be determined as to the total amount of the payment.

The Strathmore Golf Club and the Strathmore Lions requested assistance with the recreational center under the fire tower. The Lions want money for the swimming pool, and the Golf Club requested \$1000 to help building the Strathmore course up to standards.

A request was granted to the Village to look on to the town sewer by connecting their sewer.

HARDWARE MANAGER TO ATTEND CONVENTION

Mr. Roy Noble, Strathmore Hardware manager, will participate in the Marshall-Wells Stores Diamond Jubilee Convention and Hardware Show in Edmonton on March 8th, 9th and 10th.

Mr. Noble talks up this is the largest convention of its kind in Western Canada and will be attended by Marshall Wells Store as well as many other independent hardware stores. Mr. Noble will accompany him.

outlet with the town's. They will not be charged a average frontage tax as they have their own installers, but they will pay the standard monthly service charge. According to the Town Policeman Boches requested that the parents ask their children to keep off the streets and to walk on the sidewalks during conditions going to and from school.

But Finance requested permission to build a dairy bar on his property. He will be contacted and asked for detailed plans and specifications.

There will soon be more necessary vapor lights. Council decided that they would continue the string on 2nd Avenue, south to the highway. The reason for this was felt that the street is used the most due to normal amount of traffic plus people driving from the two links, the school and the swimming pool. There will be more vapor lights and safety. It will be the old lights replaced with Mercury vapor lights. All council were pleased with the new lights.

Strathmore Flyers Are South Alberta Champions

The Strathmore Flyers are the champions of Southern Alberta in the 1959-60 season. They won the title by defeating Taber in a home and home series 8 to 5. Both teams were a good variety.

The first two of the local took by 4 to 1 score at Taber Thursday night. This was a hard battle and only a 2-1 lead in the first two periods. The Flyers were the victors in the first two periods for stopping the opposition and adding many runs.

Although a count wasn't made of shots on goal, it is known that the Flyers were much more rubber hit than the Tabers. It is known that the Flyers were much more rubber hit than the Tabers. It is known that the Flyers were much more rubber hit than the Tabers.

Arrangements Re: Land Deal Made With Seitz

Mr. Fred Seitz met with the Town Council at a special meeting Monday night to finalize the land deal reported last week.

Agreements have been signed and a down payment has been made on 20 acres west of Strathmore. A survey of the land has been made and given the first reading to the 17,000 Council. It will be paid back in ten years at \$1700 per year plus a second interest.

Council feels that this will not be a burden on town, as they will receive more than that year.

They decided to have a round robin in the area.

Edmonton Wins Over Flyers In Prov. Final

The reason that the Strathmore Flyers are not the Provincial Champions is because of a bad break in the first period. The Flyers were leading 2-1 in the first period, but a goal by the Edmonton Oilers in the second period turned the game around. The Oilers won 3-2 in the final.

POST SEASON COMMENTS—The Flyers gave Strathmore fans some great moments this year. They gave Strathmore great publicity and can justify their pride. To be realistic for the Province after two years operation is a good record in any book.

Len Watten who has been active with boys sports in Strathmore announced this week that there will be a Little League baseball meeting in the Strathmore arena on Tuesday, April 5th at 8 p.m. He explained that there is a lot of interest in getting started and expects around 40 boys interested in playing.

POST SEASON COMMENTS—The Flyers gave Strathmore fans some great moments this year. They gave Strathmore great publicity and can justify their pride. To be realistic for the Province after two years operation is a good record in any book.

Here's how Imperial's income dollar is divided

Last year, out of every dollar Imperial took in:

- 55 cents was spent for raw materials—mostly crude oil—and for freight, a big item in a big country.
- 25 cents went for costs of operating the company. This included wages and salaries for our 13,000 employees.
- 9 cents was for depreciation, money set aside to help pay for replacing worn-out equipment.
- 5 cents went to various taxes (not including provincial road taxes ranging from 10 to 18 1/2 cents per gallon).
- 6 cents was left. But two of these had to be set aside for equipment to make new products and for expansion of things like refineries and service stations to meet the public needs.
- 4 cents was left for the shareholders—whose investment made the company possible.

Esso IMPERIAL OIL LIMITED

...for 70 years a leader in Canada's growth

It wouldn't be practical for Imperial to divide its income dollar the way the people in our picture are doing. A more exact division is required, as you can see from the figures below.

June 15 Set For Date Of Five Car Bingo

A meeting of the Executive of the Strathmore and District Motorist's Association held a meeting Monday night to discuss the next five car bingo to be held in Strathmore. As well as the executive they were some regular committee heads in attendance.

The date decided upon was Wednesday June 15th. North Division was again elected Chairman of the affair as was Edith Duff for the position of Vice Chairman. Dick Coleby was re-elected for secretary-treasurer.

For advertising will be handled by Leonard Hilton, and E. L. Gray and the parking by Roy Godfrey and Town Council. Roy Bechler, RCMP Const. John West was in attendance and assured co-operation as far as the highway traffic is concerned.

The one-dollar ticket sales will be handled by Bob Jackson and Albert Deamit and Archie Blain with members of the K. of C. will be in charge of the bingo board. George Radwin will take care of the stand-by lighting and Al Morton will be in charge of the doors. Les Maggs will take charge of the ticket selling booth. Residents will again be asked to leave on their outside lights on to give more light to those coming to the bingo.

Five cars will be given away, all of the standard size cars. The finance committee headed by Edgar Lyons were instructed to deal on Chevrolts, Fords, Dodges, Ramblers, Pontiacs or Oldsmobiles, and to get a variety of five of the above choices.

It was pointed out at this meeting by some of the old hands at 5 car bingos, that there has been over \$100,000 given away in prizes over the years and that figure includes the price of 25 cars.

Buses will again be used to bring people from Calgary. Le Hilton is in charge of this. Another meeting will be held Wednesday, June 1st.

MOTORCYCLIST CRASHES

INTO REAR OF TRUCK

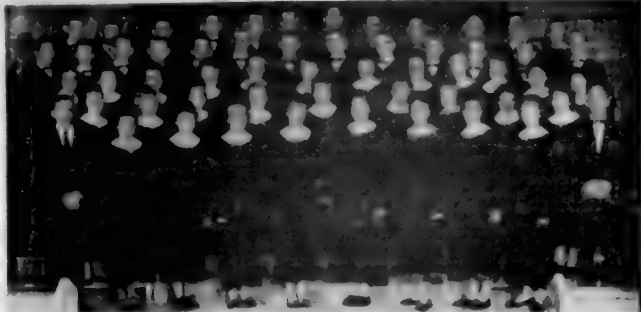

Shortly before noon Tuesday Raymond Towle, Calgary, ran into the back of a DPW truck east of Strathmore on No. 1 highway. He was travelling the same direction as the truck and it is not known why he did not use the truck ahead of him.

The cycle was demolished, but little damage was done to the truck. He was taken to Calgary by St. Mary's Ambulance in critical condition.

CONNECTION

The grizzlies were in the type last week. We reported that non-members of the Strathmore Fire-fighting Association will be charged \$10 per fire plus the cost of the trip. This should have been \$50 plus the trip expense. It was decided at a meeting held Tuesday that that figure be raised to \$150 plus an hourly rate however.

Rare Treat For Music Lovers

The district is in for a concert of music along the Larberton trail if they take time out to go to a concert given by the Strathmore School Orchestra at 8:30 p.m. There will be some discussion of the "Carmore" Larberton Concert. Many citizens might have their picture above given a concert of J. R. Wolf, organist, at 8:30 p.m.

Many citizens who know and appreciate the music of Western Canada and many states, so you are interested in an enjoyable evening.

The chair personnel includes the cost of the use of the fire-fighting equipment to non members. It was raised from \$50 to \$100 per fire, plus an hourly rate to cover all expenses.

Mill Rate Goes To 61 Mills, Recreation Grant Divided

The regular meeting of the Town Council was held Tuesday night with all members in attendance.

Secretary-Treasurer Joe Thompson as reported that Strathmore is entitled to \$7800 of the Provincial Recreation Grant, and council decided that it should be distributed in the following manner as per applications received. Strathmore Pool \$6000, Strathmore Golf Club \$800 and for the baseball diamond and the Strathmore park \$900. Preparations are now being made to make application for the grant.

The mill rate will hike 8 mills this year. Council explained the hike is to be due to increased school requisition in the main which represents 7 mills, and 1 mill for town expenses which includes increased power, wages, council fees, police, hospital requisition increase, etc. This totals

more than one mill, but there was less spending anticipated in public works which will not have the expenditure of the irrigation system this year and in other departments as well. The budget calls for an expenditure of \$60,734 this year. This figure includes the provincial grant which will be added on the other side of the ledger when it is received as well.

There will be a crackdown on water users behind over three months. Council all agreed on this. All overdue bills were reviewed and discussed.

A by-law was passed to borrow \$6000 so the school requisition may be met. This is borrowed until this year's tax money is received on a short term basis.

The following lots were changed from commercial to residential. The north side of 4th street between 2nd avenue and Railroad avenue and from the intersection of 4th St. and Railroad Ave. north to Ed. Godfrey's property. Requests have been received for buying lots in this block for houses. The irrigation will cost Strathmore residents the same as last year, \$6.00 for the season.

Council also decided to crack down on the garbage by-law, forcing businesses and residents to have the proper containers and to use them in the proper manner.

Strathmore Golf Season Opens With A Bang

The executive and members of the Strathmore Golf Club are very pleased with the turnout during their opening day which was held Sunday.

President Ray Ferguson said Monday that the interest in golf shown from surrounding towns, the district and Strathmore would indicate that we can look forward to a successful year of golf, and is very encouraging as far as future outlook for golf in Strathmore is concerned.

All golfed free of charge that day and the course was busy from 7 a.m. to dark; 102 registered and played the course at least one round and many played two or three rounds.

John Ouel of Carleton Place in the lowest score of the day, it being 36, two over par for the course. Tournament chairman Roy Anderson requested members mark their scores on the bulletin board so he can use the information for a handicap tournament planned for later in the month. Who had the highest score? All we say is that this writer had a lot of company in the above 50 group.

The lady members of the club made a draw on a caddy cart on Monday afternoon (May 21st) for the furniture (1955) plus after paying for the cart. They were well pleased with the results. The lucky winner was a club member, Kramer Ruppe of Strathmore.

There was some players from Calgary as well, although due to the fact that they had a rainstorm in the city during the early afternoon, possibly turned back some of them and made plans to come out. Membership chairman Const.

Fire Ass'n Hoists Non-Member Fees

The Strathmore Firefighters Association held an open meeting on Tuesday night when some policy regarding the organization was changed.

Firstly it was decided to raise the cost of the use of the fire-fighting equipment to non members. It was raised from \$50 to \$100 per fire, plus an hourly rate to cover all expenses.

They then decided to make boundary limits where the units would go. A motion was passed that they be set at a 20 mile radius of Strathmore being any natural geographical boundary. A sum of \$3600 will be turned in to the Strathmore Town Council immediately, as the present members will be able to have the protection of a new fire truck which they said would arrive in Strathmore in about two weeks.

To date they had 142 paid up members, and their goal is to raise a minimum of \$5000. Two ways were proposed to raise this amount. They will accept loans from members of \$25 or in units of \$25, payable as memberships are sold. Those who will get repaid first will be determined by means of drawing names out of a hat.

In addition to this, the association will accept prepayment of the service fees in units of \$25. To prevent the service fee is set at \$250 per year. This is actually paying service charges in advance. Some took advantage of this at this meeting.

The following are additional members to add to the two lists (Continued on Page Two)

John West said there were about 70 members at the beginning of the week. An exact figure cannot be determined because it is difficult to ascertain how many a family will call on a family ticket.

Six Teams In Ball League

There were six teams represented at a Ball Valley Baseball League meeting held in Standard recently, and those teams will make up the baseball entertainment this summer around these parts.

They include three newcomers to the scene. They are Rosebush, Acme and North Calgary. Irina, Standard and Strathmore make up the balance.

Charlie Madern was again elected president of the League, and Merl Knight, the secretary-treasurer.

Officials of each of the teams expect to draw up a schedule this week but the first game date is known to be Sunday, May 15th.

*Lower Production Cost per acre

	Unfertilized	Fertilized
Yield per acre (bu.)	20	30
Production cost per acre (sum of all)	\$17.00	\$19.75*

**Once Again
 The Sun Shines**
 What could possibly cause a
 little girl of two to wish she had
 never been born?
 Well, her Angelika Volkovitch,
 who has had this wish as a con-
 stant companion in her thoughts
 for many months. It was a com-
 bination of things. Her father who
 had worked in the little town of
 Lask, in their native Greece de-
 sected the family shortly after
 Angelika was born.
 Her grandfather took over sup-
 port of the family, but he was
 killed in an accident last July.
 Her mother had been unable to
 work because of weakness caused
 by anemia, and her only other re-
 lative, a grandmother, relied by
 chronic bronchitis, tried to im-
 port the love of them on a pen-
 sion and the rest of 3 rooms in
 her home, including \$24.87 a month.
 Living conditions were wretched.
 There was no running water,
 one bed, one dining, one table and
 an old wardrobe and a few chairs,
 all in bad condition. And then
 Angelika developed tuberculosis
 glands and a constant large-
 fever. Small wonder this tortured
 little girl, who had shown much
 promise in her history and art
 studies in school, now looked ar-
 round her in total despair.
 Particularly hope has now come
 for Angelika, and for her Mom-
 my and grandmother, too - hope
 supplied by Miss Mary Haight of
 Bloomfield, Ontario, who 43
 months ago had never heard of
 Angelika or her plight.
 Through Foster Parents' Plan,
 Miss Haight is contributing \$13
 per month to help Angelika. This
 provides an outright cash grant
 of \$8 a month to her mother
 plus food, medicines and warm
 clothing. Best of all, Miss Haight
 and Angelika are now correspond-
 ing through Foster Parents' Plan,
 and a warm friendship is being estab-
 lished across the miles.
 Like Miss Haight, you too can
 help the thousands of Little
 Bells throughout Europe and
 Asia, whose bodies yearn for
 nourishment, whose minds cry out
 for someone to love.
 Foster Parents' Plan is a non-
 profit, non-sectarian relief organi-
 zation, recognized by the Canadian
 government, and support by
 hundreds of prominent citizens
 around the world.
 Why don't you become a foster
 parent? Write for information to
 Foster Parents' Plan, P.O. Box 65,
 Station B Montreal. Some child
 somewhere needs you - now.

 of the United Church will be held

 The president, Mrs. R. Hunter,
 and the members of the United
 Church of the last meeting, held
 in the death of Mrs. J. R. Hunter,
 a valued member of the W. A. for
 many years. A minute of silence
 was observed in her memory, fol-
 lowed all singing the "O God
 of the Patriarchs and the Lords of the
 Prayer."
 The roll call was responded to
 by the members of the church.
 The church's motto and prayer of
 birth, and prayer for the church
 to all. The devotion was con-
 vened by Mrs. R. Hunter.
 After the church service, Mrs.
 Hunter presented a book to the
 members of the United Church of

 A committee was chosen from
 the W. A. to give assistance to the
 "Gift and Expire" leaders in
 arranging a Mother and Father's
 banquet to be held in the
 church hall on May 18, when
 both groups will be affiliated with
 the WMS.
 The president asked all mem-
 bers to think over what the W.A.
 could do in regard to Refugee
 work, after reviewing some arti-
 cles about it in the church pa-
 per.
 After adjournment, a delicious
 lunch was served by the hostess
 Mrs. C. Carson and her assistants.
 The F.W.U. meeting was held on
 April 28 at the home of Mrs. E.
 Johnson with 16 members and
 three visitors present. Mrs. Oph-
 elia McMillan presided in the absence
 of the president Mrs. C. Nelson.
 After the routine business was
 completed, a paper on After Care

 from the home of the former's
 friends. Mrs. and Mrs. N. Riddell,

The Brown family, visiting our Wabamun Power Plant, is dwarfed by the giant generators which are the newest additions to our picture of service. The Wabamun Plant is a steam power plant. 36,000,000 cubic feet of gas is burned every day to produce the steam to turn the turbines which run the generators that produce 88,000 horsepower each; or together, nearly two-thirds of the total power produced by all of our hydro-generating stations.

The Browns, on their visit to Wabamun, learned that a third generating unit which will add a further 150,000 kilowatts to the plant, will be completed in 1962. This unit will burn coal strip mined from vast coal deposits right at the plant site.

Combining thermal with hydro facilities is another example of Calgary Power's determination to provide the best possible electrical service to all of our customers in Alberta.

Your Child's Intelligence Is Not Fixed

Recent studies have proved that a child's IQ is not "fixed". Research is showing how a child's personality influences his intelligence.

Three hundred children representing a cross section of middle class backgrounds were studied from birth. The children were administered regular IQ and personality tests and were observed by their homes. All of them had average IQ's or higher when they were first tested. But early in the studies, the scientists found that the IQ's changed. In other children it went up. These became

known as the Rovers. In other children, the Drovers, it went down.

The fluctuations between the two groups were attributed to consistent personality differences. The Rovers were striving for self-reliance while the Drovers shied away from responsibility and depended on others to solve their problems. The Rovers prefer playmates their own age but are equally at home with adults and strangers. They may be termed "nonconformists" and do not need constant praise and direction in activities. They are secure in the love and sure of parental love. The Drovers are happier with groupings than with their own age group. Their feelings are easily hurt and constantly need reassurance in all they do.

Parents can encourage their children to be Rovers by guiding rather than dominating them. Children should be given stand-

ards and responsibilities that are within their limits and should be held to them. When children develop an aversion to school work or anything intellectual, it is usually not because they are dull-witted but are handicapped by Learning Blocks. It may be due to a physical defect or simply lack of readiness for school work. Sometimes the block is emotional and can be caused by parents pushing the child to goals beyond his reach.

Most children who score well on mental tests and do well in school come from homes where talk is free—very full of warmth and interest, and where there is a conscious planning ahead for the children's future.

The Question Is, Who Will Drive The Second Car Home June 15

The question of who will drive the second car home June 15 is the subject of a project which, it is hoped, will take place in the Strathmore and District Municipal Arena on Wednesday.

Strathmore has never had a failure last year. It rained all day, the day of the blizzards and on the night as it looked like they were due for their first flop. Some thought they should cancel it, but this was impossible because there would be no way of stopping them who come every year from long distances. Strathmore as it may seem, that night proved to be one of the best they had ever had despite the miserable conditions.

To hold a successful blizzards, the committee has found that much advertising of various varieties must be done. A budget of around the \$1200 mark is given. The advertising committee and they use the radio, press TV and posters in proportional amounts, depending upon what the particular arena warrants. Advertising is done as far north as Red Deer, west to Medicine Hat and Drumheller, south to Lethbridge and east to Banff and all points in between through the weekly press.

It takes over 100 people to arrange for and to put on a five car blizzards of this size and every day people at the arena that night take care of it. Over 1000 miles are driven by car by volunteers to put up posters and in addition the advertising committee has a car going at a good clip during the last two weeks. Leonard Hinton is in charge of the advertising.

Contractor Ready, No Grant For Golf

A representative of the Strathmore and District Municipal Arena expressed regret that the construction of a new golf course would not be possible at the regular council meeting Tuesday night.

He said at present he has no plans to build eight holes and arrangements can be made that will build one hole at a time. This he said would not stop any other construction in any way and welcomed competition.

Council assured that the arena plan has been approved by the municipal government. Arena to proceed with the construction of a new golf course.

Mr. Barney Connor and Steve Lamb and Nelson Thompson, representing the arena, submitted their proposal for a new golf course. According to estimated figures, a cost of \$21,000, which includes the engineering cost. Council accepted the proposal, which will now be sent to Edmonton for provincial approval.

Some trouble has been reported by the condition of the irrigation system. A ditch will be dug immediately so clean water may run directly into the spot where the water is taken from the lake.

According to a letter from the provincial government, any project receiving help for recreation construction, must be on land owned by the town, so apparently the Golf Club will not be able to get assistance this way. The request for assistance for the Strathmore park and the swimming pool are being considered, but council was warned by this letter that the swimming pool must come up to the government standards and approved by them. Plans for the pool are now in Edmonton awaiting approval.

The last set of Mrs. Nora Grix will be sold to Ted Crow for \$100. The house and garage premises were issued to O. B. Hermann and P. M. Vanebo.

Clean up June 22

The Strathmore Council have set June 22 as clean up day in the town.

They will ask for the co-operation of the farmers in the area to donate their trucks to haul the waste away that day. In addition they will ask the citizens of the Strathmore Citizens to be present. Clean up their yards and the thousands are wondering why they are going to get the second car home. Once the blizzards may be an old friend. They will be here from Lethbridge, Medicine Hat, Hanna, and Deer. Banff and from all points between and there.

Spray Early :-

The earlier your crop is sprayed, the more ef-
ficient the job.

The younger the plant, the more vigorous it is,
thus allowing it to absorb the chemical more re-
sulting, obtaining a more efficient kill. This specially
true on the thistle family, buckwheats (wild and
tatarian) and dandelions.

AERIAL RATES--\$100 per acre on acreage
over 100 acres. This price includes all material
unless a special application is required. Rates on
less acreages on request.

NOT A JOB FOR A FEW

It has been said by some, that the Strathmore Golf Club is a job for a few. This is not so. It is a job for many. It is a job for all who want to see the club become a better place for all to enjoy.

The Strathmore Council has set a goal for the year 1960. It is to make the club a better place for all to enjoy. Wedding

COOP - LENNOX

A very pretty afternoon wedding was celebrated in the United Church at Carleton Place, Ont. when Kathleen Mary Lennox became the bride of Donald Clayton Cook of Carleton Place.

Mr. Gilman performed the double ring ceremony before an altar decorated with apple blossoms and white.

Given in marriage by her father, the bride wore an elegant long gown of chintilly lace with a light fitting bodice scalloped with sequins and tiny pearls. Her head-dress was a beaded lace cap with a sequin veil. The bride carried a colonial bouquet of red roses with white streamers.

Miss Christina Lennox, was bridesmaid and Miss Pat Stragman was maid of honour.

Best man was William Levison, brother of the bride and Gertie Stragman at attendant, while ushering duties were shared by Gordon Hoggarty and Wilfred Levison.

Reception for the ceremony was Mrs. Thomas McClelland, pianist was Mrs. Doris Paris.

A buffet supper was served at the home of the bride's mother, Mrs. Alma Lennox, with William Levison proposing the toast to the bride.

For travelling, the bride chose a winter white sheath dress with matching duster coat and white accessories and a carriage of Talisman runs. Following a brief honeymoon the happy couple plan to live at Carleton Place.

Out of town guests were Mr. and Mrs. W. H. Cook, Mr. and Mrs. Cook and family of Carleton Place, Mr. and Mrs. H. Johnson and family of Carleton Place, Mr. and Mrs. Johnson and family of Carleton Place, Mr. and Mrs. Johnson and family of Carleton Place, Mr. and Mrs. Johnson and family of Carleton Place.

Rockyford

ST RITA'S C.W.L.

The regular meeting of St Rita's C.W.L. was attended by Fr. Lehman and twenty-two members. The meeting was presided over by members of the parish who are ill and for the late Mrs. Eva Kallio.

Mrs. Ernest Payer, who was the only delegate, gave a report on the convention at Banff. It is hoped that Rockyford will have a large representation next year.

Reports from the Mother's Day Tea showed it to be quite a success. The C.W.L. wishes to thank all who contributed their support.

Rockyford C.W.L. now has a full membership numbering 28.

Thanks to the efforts of membership convener Mrs. John Cameron, members of the parish are being organized by Mrs. Harry Katterhagen for a retreat starting July 19 at Carleton Place.

The C.W.L. will purchase and sew material for two black graduation gowns. Graduation ceremonies will take place in the late summer.

Anyone wanting C.W.L. pins will be able to purchase them from Miss G. Kowter.

Mrs. I. Katterhagen, program convener, provided entertainment in the form of bingo.

Lunch was served by Mrs. Lawrence Blum, Mrs. Alphonse Blum and Mrs. A. F. Veizer.

Minority federal government?

The bits on the outcome of the Quebec election in the Liberal and P.C. camps were pretty low. The Liberal Minister Paul Martin, who lost to the P.C. Minister, Jean Lesage, was quoted as saying that the next federal election will be on the order of the day.

There are going off the day after tomorrow, the next federal election will be on the order of the day.

present. President Mrs. J. Stewart
welcomed the visitors and mem-
bers.

Canada was sung followed by
the creed and flag salute.

This was a very busy meeting,
as we had plans for the Hand-
capped picnic on Sunday to dis-
cuss, the completion of conference
plans and the planning for the
action sale which we will enter
on June 18.

Mrs. Martin stated she had con-
sulted the constituency convenor,
Mrs. Doreen Martin, on June 5
and after much talking it was
decided that the Ladies' League
directors had been advised and
all agreed that two prizes should
be purchased for the Angel Food
project. She had written Chas.
and Queenstown, so a first and
second prize will be purchased
with the six branches donating a
small sum.

Roll call, a bazaar prize was an-
nounced by most of the ladies.

The meeting adjourned and Mrs.
Keenan assisted by her daughter,
sewed daily refreshment. Ber-

PROUDLY WESTERN

Based on John O. McHugh's description of May 24th Celebrations
in Calgary's First Chinatown about 1901.

Behind their placid faces Alberta's Chinese pioneers hid a fierce desire to succeed in this
new land. They had come to Canada with little but hope—to work as lowest class laborers on rail-
way construction crews or to toil in the British Columbia gold fields. By the turn of the century
they had gained a place in Alberta's economy as operators of restaurants and laundries.

Always shunned, sometimes feared and often scorned, they had to one bridge to cross
the chasm which separated them from Alberta's occidental population: extreme patriotism for
Canada and a child-like love of demonstrating that loyalty with noisy, exuberant fireworks dis-
plays on such occasions as the Queen's birthday.

It was enough: today Alberta's Chinese are regarded as respected members of the com-
munity, gifted in the art of cuisine, conscientious in matters of civic welfare, and hospitable in
sharing the Oriental glamour of the "Chinatowns" with their white neighbors. The color woven
into the tapestry of Alberta's development by its Chinese pioneers is proudly recognized by another
Alberta pioneer.

ORGANIC MATTER THE LIFE-BLOOD OF THE SOIL

Probably the least appreciated component of our prairie soils is the organic matter or humus content. This is no doubt due to the fact that, initially, most of our prairie soils were fairly well supplied with this material. The organic matter which was present in the virgin soils of Western Canada, accumulated over the centuries.

A local storm passing over on Friday night deposited nearly two inches of rain in a small area, south of Hussar, while in town very little rain fell. The crops have made excellent progress in the last two weeks and are holding up well in spite of the extremely hot and dry weather. Wheat and barley are all headed out and flax is almost in maturity.

The Economic Weather Ahead

Business activity in both Canada and the U.S. seems to be following out close to record high levels. Dorian Robertson in The Financial Post But with the year's slow growth rate offering such a contrast to last year's faster pace there's speculation about a possible downturn making itself felt in production, employment and revenues by next winter.

In Canada the two-year-old recession is looking increasingly dire. It has, certainly, enough steam left to promise that 1969 will see records established in most over-all measures of business activity. But especially since it is known that the Canadian GNP only edged up in the first quarter of this year, thoughtful observers are becoming more cautious about the prospects.

Those who are bullish about Canadian business trends say that the current pace will ease and activity will pick up again in the fall. That, anyway, is in line with the historical pattern of business cycles in Canada.

But a more bullish analysis is that Canada's quiet boom is toppling out right now.

WATER FROM THE SUN
A \$2 million legacy left to McGill University by a Canadian engineer may bring fertility to the world's arid lands, reports John Irwin in the Financial Post. The engineer, James H. Brunt, partner in the construction firm of Bruce-Brunt Engineering Co., Montreal, who died in 1959 aged 81.

The legacy will help develop a fuel-proof, economical power plant using sun or wind energy alone, or both, which will purify salt or brackish water for farm irrigation.

Rural Fire Truck On Fire Scene In Record Time

The Strathmore fire equipment was tested for the first time in a rural fire at 10 a.m. Saturday morning when they got a call for help from Helen Waldman, who had a stack of bales catch fire on a baling machine. The fire is located 1 1/2 miles from the town of Strathmore.

Mr. Waldman put in the call for the equipment at 2 a.m. and the Strathmore fire truck was on the scene in 15 minutes. The fire was spotted by Raymond Newell, who lives 1 1/2 miles south of the Waldman farm. The fire truck was instrumental in saving parts of a shelter and made it possible for the man and his wife to escape. The fire was caused by a spark from a lawnmower.

A half inch of rain fell during the electric storm which assisted by wetting the grass around the fire.

Mr. Waldman was amazed at the time it took to get the fire equipment on the scene and couldn't understand how the firemen could make such good time when presumably they were all in bed at the time of the alarm.

They pointed the aspect of the tank on the blaze, and refilled it from a spot a half mile away, but they did not need the second tank. It is a wonderful equipment, Mr. Waldman said, but a second truck is needed to help.

The Rural Firefighting Association is at present conducting a drive to raise enough funds for selling memberships to the association, to purchase a water truck.

Closed Next Week

As has been the practice in the past, the Standard will close down for a week on the staff say for a holiday. There will be no publication and the office will be closed during the week of July 29th, and the normal operations will begin the first week in August.

Wm. Jensen Falls Down Elevator Shaft Saturday

Mr. Bill Jensen, manager of the Strathmore Cold Storage and Lockers Ltd., was taken to the General Hospital by ambulance Saturday morning suffering from a brain concussion and cuts to the head, after falling down the elevator shaft at the plant. He was standing on the main floor near the elevator shaft when the elevator was on the second floor and was talking to his son Johnny Peterson who was on the elevator. Apparently Mr. Jensen lost his balance and fell down the shaft to the cement floor seven feet below.

Car Plunges 200 Feet, Five Hurt

Five Rosedale residents received serious injuries Sunday evening as a half mile east of Rosedale. They were taken to the Drumheller hospital.

A car, driven by Edward Gasky, was coming west from Madeline's farm about 9:45 p.m. opposite the home of Wally Jorgensen. Mr. Gasky swerved to miss a cow on the road and plunged down a 200 foot narrow gorge.

The driver, who has worked in Rosedale for several years, suffered from a broken hip and a fractured pelvis bone.

The passengers were all Lillian Marie broke her leg. Larry suffered face injuries and Leo had both legs broken. Harold was released from hospital the next day, after being treated for bruises and shock. The car was a total wreck.

A Calgary ambulance was called and it took two hours to get the passengers out of the car. In order to get Leo out, Rosedale farmer, Walter Hymas cut the top of the car with an axe.

The Rains Came And How

Much needed rain came to Strathmore and district, between 2 and 2 1/2 inches. Two and one half inches was measured at the Western Irrigation Headquarters in Strathmore, and the most of it came during a one hour period.

The thunder and lightning was one of the worst ever seen in this part of the country, but the heavy rain only took in an area within the radius of four to seven miles of the town. Some hail was included, but not enough to do much damage.

As a result of the electricity, power and telephone poles were split and many were out of power for about a half an hour. There was no stoppage in telephone service.

Ernie Cole, District Manager for Calgary, said he and his assistant, Bill Hallett, worked all night until 6 p.m. the next day before normal service was regained. He had 30 trouble reports.

They lost one transformer in town and three primary switches. Bob DeVillie, Manager for Alberta Govt. Telephone, said that they had to make repairs on 75 cables which affected about 50 phones, but only one or two were out of order.

The downpour was described by one downtown business man as being like a flash flood. Many basements took on water and grocers in areas below the street had been standing for years. The King Edward Hotel suffered much water when the ground on the roof was water poured in.

Southwest of Strathmore, the river was still rising when the rain fell in places at 10 a.m. About 3 a.m. the Strathmore Rural Firefighting equipment was called out to H. Waldman's farm where a stack of bales caught fire as a result of being hit by lightning.

Pictured above is Blackfoot Bull. At a recent show, he won the Strathmore State Welcome one of the finest. Lethbridge, Rockyford State Welcome. Stock from the same herd took 1st and 2nd place in the Grand Champion additional prize at this show and belongs to the Dille and ship class as well as Senior well. John Cammariert Herd from Rocky.

Blood Clinics In Rockyford And Strathmore

Blood Donor Clinics will be held in Rockyford and Strathmore, Thursday, August 4th. In the Rockyford Community Hall from 1 to 3 in the afternoon and 7 to 9 in the Strathmore Memorial Hall.

To enable the Red Cross to meet the present demand for blood many donors are needed from the two towns. All blood types are needed, but O RH Negative which is a rare type, is especially useful. It is used for emergency cases when time does not permit the testing of the patient's blood. This rare type is also used in cases of Haemolytic disease of the newborn where the baby requires transfusions to survive.

Regardless of your blood type, the Red Cross needs it to carry on their good work.

Hits The Road Taylor Model T

Ken and Beth Taylor of Langdon and their 1915 Model T Ford last week led a group of five antique cars from Calgary to Saskatoon and the Platters. The cars were taken from Calgary to Rosemont, Saskatchewan by mailer from where the Taylor Ford was driven under its own power to Saskatoon, a distance of 88 miles.

Monday evening Ken and Beth along with the Calgary group known as the Alberta Pioneer Auto Club, were given a grand reception.

Rev. Damkar On Youth Board Of New Lutheran Church Union

Thursday, July 7, will go down in Canadian church history as an historical date, wrote Tom Jarvis, secretary for the Region Leader, P. in covering the constituting convention of The Evangelical Lutheran Church of Canada. Seven new Lutheran churches at this convention represented their churches at the convention.

Rev. Bert Damkar and Mr. Chris Jensen of Standard and Mr. Otto Christensen of Huxar were among the approximately 300 clerical and lay delegates who voted unanimously to select a new body into motion beginning January 1, 1969. Their election created a new Lutheran body where previously there have been the American, Evangelical and United Evangelical Synods. The new body will be made up of more than 60,000 members in more than 800 congregations including Christ Lutheran at Standard and Our Savior's at Huxar.

Dr. Karl Holfield, Regina, formerly president of the A.L.C., was selected as the first president of the new Evangelical body. Rev. Bert Damkar of Standard was named to the Youth Board. When asked his impression of the historic convention Pastor Damkar said, "It was a thrilling experience to take part in this convention, especially as since I was one of the members who planned it. Our hope and prayer in becoming one church is that we might better be able to carry on the work which we should do. There is a great potential available in such a working force as the new church can be."

Dr. F. A. Scholtz, Minneapolis, president of the American Lutheran Church with which the Canadian church is closely affiliated, encouraged the delegate assembly to move toward complete Canadian autonomy in the near future.

Dr. Holfield, in accepting the presidency, voiced the sentiment of his constituency for complete Lutheran unity across Canada in the near future.

The new body, with more than 60,000 members in congregations ranging from Lakeland in the Pacific, become the largest Lutheran body in western Canada. Its headquarters will be at Saskatoon where its Lutheran Theological Seminary is located.

The grand old body, with more than 60,000 members in congregations ranging from Lakeland in the Pacific, become the largest Lutheran body in western Canada. Its headquarters will be at Saskatoon where its Lutheran Theological Seminary is located.

Higher Hopes For More Education

Pan Shao Chi is an 11-year old
Chinese boy who recently hopes
to be a doctor. He is one of many
thousands of children forced to en-
dure a life of incredible squalor.
His parents have chosen to struggle
for survival in Hong Kong rather
than exist under Communism.

Shao Chi's parents fled from
Canton after Communist troops
took over most of the mainland in
China. Together with thousands of
refugees, they arrived in Canada
last city to find it overflowing
with the homeless and hungry.
There was nothing but wretched
poverty. Food supplies diminished

shelter and employment were al-
most impossible to find, and dis-
ease was rampant. But hundreds
and thousands of refugees, back-
ed by hope, or driven by dis-
pair, continued to arrive each
year. Today there are more than
2 million people jammed into a
habitable area of 42 square miles.

The result is appalling. Human
beings are packed into terribly
overcrowded tenements. Daily dis-
cords into culture and belief spaces.
They spit out into the streets to
write in back alleys, or build lit-
tle ten-pager and sheet-iron shel-
ters on roof tops. On the edges of
every hillside and jagged moun-
tain, thousands of families have
collected old tin cans and waste
timber to build squatter villages
of shacks. There is no water or el-
ectricity of any kind. Kerosene
lamps spill, fire start. In 1954,
one such holocaust left 50,000

homeless in one night.
Shao Chi's father managed to
earn a little money by Chinese
paintings, and his mother sold
in sewing. Together they man-
aged to scrape together enough
to cover food for the three-
year-old child. His father was a
bright boy. His family have been
forcing themselves to scrape \$250
per month for his schooling.
Recently now hope has come to
the Pan family. Through the on-
tario work of Foster Parents
Plan, little Shao Chi has been
adopted by Miss Margaret Gosh
of Toronto. The adoption is in
effect only. Miss Gosh has agreed
to contribute \$15 a month to-
ward his expenses for a three-
month period of one year. This assures
the boy and his family and \$150
monthly cash grant, with food and
clothing (parents and necessary)

Thousands of all- and across Canada and around the
world. Why don't you become a Foster
parent? Thousands of children
are waiting to be adopted. Why
don't you become a Foster parent?
Foster Parents Plan is an un-
derstanding, international
relief organization, recognized by
the Canadian government, and
supported by hundreds of people
from B. Montreal.

made to the Drumheller Board of Citizens in connection with the charges, now presently being made by the Citizens. Even the Home moved that the matter of the Citizens' Home be taken from the table and the matter of the Home be moved to the next meeting that we received with the Senior Citizens Home in Strathmore. A proposed amendment that we have more representation than one member on the Board of Management, was moved and passed.

Motion that we advertise in the local paper for proposed applicants during the next 15 months that are desirous of entering the proposed senior citizens home. And that the Secretary write the present Board members for a list of applicants, so that a need could be shown to proceed to erect the home.

The Council stated that he would not approve of the extension into lot 25-23-24-4 by Calgary Power Co.

Notice was given that the bridge plans located N-31-24-20-4 are requested moved by Richard Anderson, as he wishes to buy the bridge. Mr Heberling stated that he would assist the same.

It was agreed that the Council would supply credit grant to the Standard School, but not with our own funds.

The Reeve suggested proposed arrangements to work with Village of Standard on a recreation park. After discussion, the Sec. was requested to write the Govt. for information to the required information.

Messrs Miller and Heberling discussed the proposed park site at the Severn Creek dam site. Discussion centered as to the ownership and extent of ownership of the proposed area.

The only way to make farming pay... modern methods and machines

You can't farm profitably today by using yesterday's methods and obsolete machinery. They simply don't meet the demands of modern farming... high productivity and low production costs.

The profit potential of your farm only can be fully realized through utilizing modern methods and the latest farm machinery. Today's farm machinery measures up to the task of doing more work faster and more efficiently. Fewer labour, a major cost in the operation of any farm, is kept to a minimum while the amount of work done per day is greatly increased. Critical farm operations get done at exactly the right time without depending on the availability of high priced farm labour.

Massey-Ferguson machines and implements completely fill the requirements of profitable farming... more work with less manpower at lower cost.

Good are the days when a farmer could quickly hire all the manpower he needed for work that had to be done fast to take advantage of right field or weather conditions. Today, experienced farm labour is scarce and costly.
The answer to this problem is modern farm machinery. It provides an efficient, economical working force that is available at all times. The danger of profits being left lying in the fields because of a shortage of harvesting help is eliminated. The ability of modern farm equipment to handle heavy work schedules at top speed with a minimum of manpower often means the difference between profit and loss on today's farm.
Follow the trend that leads to more profitable harvesting. Team up with Massey-Ferguson machines and implements. They keep labour costs low—provide a wider margin for profits.

CRUCIAL QUESTION

Canada's troubles in trade and manufacturing are cause for very deep concern, say the 500 men of the Canadian Manufacturers' Association. They are not sure whether to fight for protection or to fight for free trade.

(Manufacturing industry) as it is today should we go on—as we have under the GATT agreement that it would be made up of men who do the right thing, about commercial policy? Or should we from the fact we are for free trade from that urban day as we see it?

The Canadian Manufacturers' Association is the statement of our trade. The results of a policy of protectionism will be irreversible.

PROUDLY WESTERN

-- German Immigrant Settler Turning First Sod of His Alberta Homestead with Wooden-Beam Plow.

A Salute to Alberta's German Pioneers

The promise of free farm land in the Canadian West in the early years of the 20th century was like a giant magnet drawing to the prairie farmer-settlers from all around the world. Its pull reached East to Russia and to the old Austro-Hungarian Empire, bringing to Alberta thousands of German speaking families. At the same time it drew second generation Germans from the northwestern states—Minnesota, the Dakotas, Wisconsin and Kansas—and this migration was supplemented again by government and railway colonization schemes particularly attractive to German-speaking settlers.

Hard-working, self-reliant, willing to endure the hardships of pioneering and to contribute earnest and enthusiastic effort to the building of the West, they make up one of Alberta's largest pioneer groups both in actual number and in value of their contribution to the agricultural advancement of the province. Another pioneer in the West—the Calgary Brewing and Malting Company Limited—is proud to salute them!

enough water for each acre, and the big sprinklers are in use.

Four Vermeer sprinklers have been operating in the District of Strathmore since the district for two seasons and the owners are quite satisfied with this machine. It is only about half the work of the ordinary sprinkler. The Vermeer is a two wheel machine which spray water about 180 ft for 2 acre circle size and 200 ft for 4 acre size. It gives uniform distribution of water at about 7 inches per hour which may be increased with larger nozzles if the land will take water faster. The spray 2 inches water would take about 3 hours, plus another hour moving to a new set that is used to water 10 acres per day using the 2 acre machine. To cover a rectangular field with water spread in circles requires some reconfiguring. A rectangular pump about 5 inches in size is located along the canal or head ditch and 3 or 4 inch uniform drip to the far end of land to be watered. The Vermeer is mounted on a pump which is pulled by an old tractor at the end of about 300 ft of cable. As sets are made to rotate the pump, the water is spread in the wagon. This system requires no field ditches. The picture shows the pump in the field. August 15, appears to be an enlargement of this side with water carrying pipe supported by wheel and up to 2000 feet long.

The Big Squirt moves slowly a few field ditches with two guns shooting water out to cover a strip over 600 feet wide. We use one of these machines operating near Vauxhall a week ago spreading 2 inches of water over a couple of acres per hour. This machine is automatic with a guide to make it follow a ditch and controls to stop at the end of the ditch or when water is short off. Thus one would start it on a half mile ditch and twelve hours later the Big Squirt comes in a stop after having spread 2 inches of water over 24 acres. To cover a field one would need ditches every 600 feet but these do not have to be contour ditches as for ordinary farm irrigation. The machine has no difficulty taking water out of a cut or fill up to a few feet. One would need seven ditches across a quarter, that is, farm it in 24 acres.

lands. One cubic foot of water per acre in an hour means 2 acres supplied with 2 inches of water requires that he hope to make Big Squirt's in Cambridge this winter.

Gas Turned On At Rosebud

Sungazed in the warm hills southeast of Drumheller, the community of Rosebud welcomed natural gas August 25. Over 100 residents witnessed the flare-lighting ceremony at the gas company regular station, as personnel from Canadian Western and district officials gathered to commission the installation.

H. M. Hunter, Canadian Western's general manager, welcomed the community to their Family of Customers. He noted that, as have been serving some areas since 1912, Mr. Hunter emphasized the importance of natural gas and assured those in attendance that, we are going to do everything in our power to bring you the finest possible service.

Reeve T. S. Chamberlain, speaking for the municipal district of Westland, was enthused at the arrival of natural gas. The ease of cooking, the ease of heating—it is now ours with natural gas. Reeve Chamberlain thanked the Canadian Western crew for an excellent job and urged the residents of Rosebud to get their gas appliances in operation.

R. S. Hebert, councillor for the municipal district, said the homes and in the plant blue flames cut its path to the night vision and residents also made their way to the Community Hall. Here the Lions Club served tea and doughnuts, a nightcap to an exciting day.

PARTY FOR KAY KEER AND MURIEL LOCKIE

About 50 lady cur's gathered at the home of Kay Keer to bid farewell to Kay Keer and Muriel Lockie. Binge was played and much merriment was had when the winners opened their parcels.

At Danora, the club president, presented Kay and Muriel with lovely curling brooches and best wishes in their future homes. Both ladies have been active members in the Ladies Curling Club.

A delicious lunch was served. Kay and Muriel thanked the club for the pins and for having the party for them.

Fred Zbryski Honored

A farewell party in honor of Fred Zbryski, owner of the Strathmore Hotel for the past ten years, was held in the hotel August 24th. There were 150 friends from Strathmore and district present. Arrangements were made by Joy Henchey and a committee of willing workers. Mayor Gray was in C.

Seated at the head table besides the honored guest were, Kay Keer and Mrs. John Zbryski, Fred's father and mother from Forest Lawn; Mr. and Mrs. Tony Zbryski, Robert Keane and Fred Keane, Calgary Brewing and Malting and Mr. and Mrs. Bob Leffman of the Kirk Island Hotel, Strathmore.

A fine time was had enjoying re-

freshments and sandwiches till nearly midnight.

Mr. Zbryski is at present on the executive of the Strathmore-Area and is in charge of the building committee. He spent many hours in the area during his time of service. Curlyers will also remember Fred as an organizer and worker when their artificial ice plant went in.

Future plans are not certain, but he is negotiating with Leithbridge personalities, now and may go into business in that city in the near future. He expects more definite word towards the middle of the month. He sold the Strathmore Hotel to Mr. and Mrs. Joy Savoy.

As a parting gift, Mr. Zbryski was given a set of luggage.

Mrs. G. Nielsen and Mrs. Edna Dine were also there.

Twenty-one met to Sunday dinner at a family reunion at the Keith Bergh home last Sunday. Mr. and Mrs. Harold Quinnell and family from Northfield, Minn., were present as well as other relatives from Calgary and Bowden.

Many will remember Neil Brown, who at one time resided in Strathmore. His father was a superintendent at the C.P.R. farms until 1958 when they moved to Spokane, Wash. Neil was in the Standard office Friday talking with Lester Jones to know him in the old days, and asked about the many friends he used to go to school with here. It is the first time Neil has been back since they moved to the States.

Fire Ruins Station Wagon

Andrews—Who formerly of this area and now residing in Calgary and now back in his own home from Rockyford last Saturday night.

Andrews, who owned a 1971 station wagon, had the wagon parked in his driveway. The fire started in the interior of his late model station wagon.

John Stevens noticed the blaze and called the RCMP and sent him to the station. In the meantime, within minutes, Fire and Heliport were there. Fire extinguishers kept the blaze from getting to the motor. The station wagon was back at Andrews' as well and cost \$1,000 to get with water so a tow truck could bring it to Strathmore.

Kay Keer Goes To G. Prairie

Mrs. Kay Keer R.N. left Strathmore over the weekend to embark on a new program launched by the Canadian Red Cross in the nursing field. She will be holding a supervisory position with headquarters in Grande Prairie, teaching home nursing.

Her first stop was Calgary where arrangements will be made for her to fly to Toronto where she will attend meetings with other nurses in the same field, September 7, 8, and 9th.

Mrs. Keer, who recently sold her home to H. Croy, moved her household effects to Calgary over the weekend to her daughters and mothers homes.

Correction concerning Fraga-Kenney wedding, Larry Gervasi was second ring bearer instead of Kenneth Price.

The Canadian Western Natural Gas Co. Ltd. crews have commenced installation of natural gas in the village, and anticipate completion in near future.

CORRECTION

After last weeks publication, Mr. W. L. Armstrong, Wheatland S.D. Trustee, is possibly wondering how he is going to carry on his farming operations in order to be vice Principal of Hamar school, an appointment we gave him in error last week. In our account of the last school meeting, we reported the trustee to be the coming vice principal, when it should have been Mr. R. H. Douglas.

Rosebud

By Mrs M. L.

Bar John Ylvo, nursery on Fairbank from India, told the District Working parties on a recent Sunday New Aradon Erickson spoke at two services in Valleyview that day.

We are glad to report that Mr. John Christensen is up and around again after spending two weeks in the Drumheller hospital. We have word this week that Mary and Lou Nelson are showing improvement this week both very cheerful and in good spirits. We are looking forward to the 10th to be coming home.

Congratulations to those responsible for the Annual Dinner and Flower Show. The flowers and vegetables were nicely displayed last night. Among the 250 entries were those of Mrs. Henry Clark, Miss M. Briggs (Beynon) and Mrs. P. Pedersen formerly of Rosebud. The roses of A. Munn and 1921's were missed. Also on display but not for competition were several novelty entries, including a spray of wild oats with each seed wrapped in a different color tissue. Several ladies were overheard to remark: So that's wild oats. But they found they were a terrible thing, but they are pretty.

Mrs. William Lee of Calgary has spent a week with the Ylvo's here. Mr. Wm. Lee and Mr. Gilbertson of Edmonton, both uncles of Mary and Lou, called on to visit them, Tuesday evening.

Mr. and Mrs. Clifford Gilbertson of Bow Island and the Cordella of David visited at Victoria Sunday. Mr. and Mrs. Carl Daniluk of Red Deer have been visiting her folks, the Burtons, for the week.

Mrs. Katie Toubert had had up

to 15 men for breakfast every morning as work progressed on the 10th anniversary of Rosebud.

An 8000 ft. long giving ceremony was held Thursday evening August 25th at the Regulator. Sixteen miles north, edge of town, however, much singing also, much social time was done before the residents may use their appliances.

The 10th anniversary of Rosebud has been a pleasing year for all participating with the social history of the town will be done before the residents may use their appliances.

New and Mrs. Arnold Erickson and family returned from their vacation Saturday.

Thomas, Mary, Wilton and Flora-Mae Erickson are back after having spent in Edmonton during the month of July.

Mr. Lester Cox was through Rosebud this summer. He used to have the Confectionery and Bakery Shop.

The regular Pro School and World Bank Clinic will be held as usual Thursday, September 1st in the Stevens Creek School.

Mr. John Martin has written a manuscript, "The Steel Wind Through and From the Great Basin As a Pioneer Camp for the National Grain Co. He also has pictures of Rosebud through the years from 1880-1950. Open in 1913 consisting of the National Elevator and the store at the time in the middle of the street and facing south to Rosebud about 1913. The manuscript tells of the "best times" and highlights in the community, away from Rosebud, being through Rosebud. It was built with the help of horses, mules and pulleys.

During 1959 the index of Canada's industrial production rose 8 per cent to 128, base 1940 equals 100. Another indication of national growth.

Vauxhall... the difference between skipping and saving!

THERE'S NO SKIPPING ON PLEASEURE

That's the big difference with Vauxhall — it has the total visibility of wraparound windows — full-Race steering to help you into that tight parking space — a low centre of gravity to give you a wonderful feeling of steady, smooth control over the roughest roads.

NO SKIPPING ON COMFORT

That means sit-back-and-relax comfort for five passengers. With Vauxhall there's no struggle to get into the back seat, four wide opening doors provide easy entrance and exit. Comfort-cushioned seats and steering column give you the two of the many other Vauxhall luxury features.

NO SKIPPING ON ECONOMY

There's not enough space to list them all but here are a few to tantalize you... A Canadian-size heater designed for the frostiest winters... two-speed electric windshield wipers... top quality suspending body dip for years of wear and "just new" good looks.

Scott's Auto Service Burns To The Ground Saturday

Fire completely destroyed Scott's Auto Service Ltd. Saturday afternoon. It burned to the ground, leaving nothing but a pile of rubble. The last hope came when oil runs exploded and spread the flames all over the shop. Within minutes the office and adjoining restaurant were a mass of flames. The fire department then concentrated on the gas pumps, to keep them from exploding.

The business was fully covered by insurance, and according to Charlie Scott he estimated the loss would near the \$30,000 mark. There was \$100 in cash lost as well.

The town water system does not extend as far as this section of town. The highway is the worst limits of town and there is not enough water to reach from the nearest hydrant.

The Scott Brothers, who have been operated by his son, Stanley, for the past 21 years, had been operating the business since 1938. They will construct a building suitable for them to use for an office they may need in the future. They will also build a new building to put up.

And, Pavlik, another employee, phoned the Strathmore Fire Department and Charlie Scott was home at the time Andy Scott the other partner was in Calgary and didn't receive word of the fire until it was all over.

The fire department answered with their two trucks, and the fire was under control but ran out of water.

Mr. and Mrs. Frank Knochowski motored to Regina on Saturday, to see Frank's brother, but he had moved and they were unable to find him, so they returned that night.

Mr. and Mrs. H. Croy have moved into their new home, and Mr. and Mrs. Alex Kormanek and family are now getting settled in the other house.

Bill Blacklock, 22, drove from his farm recently. The evidence was left in the ditch. The witness cut their heads off and left them in a small pile in the ditch.

Responsible Witnesses attended their annual circuit assembly September 8-11 to be held at the Calgary Exhibition grounds.

Mr. and Mrs. Vern Miller and Mr. and Mrs. Frank Smith spent the weekend in Banff and Lake Louise.

Mr. and Mrs. Stan Christie are being congratulated on the birth of twin girls. They were born on Tuesday.

Mr. Bill Washburn left Calgary Tuesday evening for Chicago, Washington and New York. From there they will sail for France where he will study at the Sorbonne University for the coming year. While there he plans to do some travelling on the continent.

Mr. and Mrs. Les Maggs and daughter Lynn are home after spending their holidays at the coast.

Mr. and Mrs. Bob De Ville and family will spend some time in the mountains and other U.S. points.

Mrs. Harry DeBosch will be in her garden and broke her arm in three places.

Haskayne Retires The Reilly's Married 50 Years In Business For 47 Years

A long record of service to the public ended for R.S. Haskayne of Glenora, when he sold his company to Mr. and Mrs. J. Haskayne last month.

The long time artist with the knife has worked 47 years in most cutting and leather service. He has decided to take it easy from here on in.

Mr. Haskayne came to Glenora with his wife, Mary, from Vancouver, and was employed by the Pacific Cold Storage Co. and remained there until 1950 when they moved to Glenora and operated a leather goods business.

Pacific Cold Storage Co. is now owned by the Glenora stock and they are at Bassano at that time and the business has been moved to Glenora.

The Scott Brothers, who have been operated by his son, Stanley, for the past 21 years, had been operating the business since 1938. They will construct a building suitable for them to use for an office they may need in the future. They will also build a new building to put up.

Mr. and Mrs. Haskayne plan to live on in Glenora for at least a few more months.

The adults will also have an opportunity to test their skills behind the wheel. Although there is no trophy for the class.

Wilson Wells, a former Strathmore resident, now with the Department of Highways, spoke to the school children on Highway safety yesterday, and encouraged all those eligible to enter into the competition.

Town Council

The regular meeting of the Strathmore Town Council was held Tuesday night with all members present.

Mr Jack Lamb of the town's engineering firm was present to assist in establishing the municipal sewerage system and to be charged for the lots in the subdivision. After a long discussion it was decided to have the sewerage system follow the line of the town and services.

The actual cost per foot frontage is still under study. This figure will be known by the first of the month.

The town will only service lots in which they feel necessary at any given time. At present they will only service the first 20 lots closer to town and service some.

Omni-Cor Construction of Calgary expressed desire to purchase five of the lots as soon as possible.

It was also decided that no houses could be built on the new division. This is in accordance with CRA regulations.

A light beacon will be placed on top of the town hall to let the town policeman know that he is wanted on the telephone and can't be contacted while he is on patrol. The light will be turned on by the telephone operators.

Building lots in the town proper were sold to the following: Chris Richter, C. G. Fuchs, Morris Crystal and Felix Volk.

A letter was read from the Provincial government stating that Strathmore will not be able to obtain a camp kitchen for their park at present time. They did however

say that they may be working out a deal with the federal government and that there was a possibility that they could get one this summer.

A copy of a letter was read from the Health Unit directed to the town. It was directed to bring their present disposal system up to proper standards. It stated that there is now an emphasis on the 1000. Action was taken on August 28th, but it was postponed for thirty days to the summer. Mr. Hunter was trying to obtain an exemption from Mr. R. Arthur to bring the town sewer system through his property to 30th Street.

The annual general election will take place on October 18th and to bring their present disposal system up to proper standards. It stated that there is now an emphasis on the 1000. Action was taken on August 28th, but it was postponed for thirty days to the summer. Mr. Hunter was trying to obtain an exemption from Mr. R. Arthur to bring the town sewer system through his property to 30th Street.

Strathmore United Church was the scene of a beautiful double wedding ceremony recently which united in marriage Mary Anne, eldest daughter of Mr and Mrs Leif Olsen of Strathmore and Ronald Edmund Olsen, son of Mr and Mrs. Elmer Olsen of Markerville. Rev. R. Upton officiated.

The bride given in marriage by her father, looked lovely in a white, long gown of nylon chiffon trimmed with sequins. Her finger tip veil was held in place by a sequin trimmed crown. Her coronet hairpiece was made up of red roses.

Miss Linda Tiede, sister of the bride, was maid of honor, while Miss Marlene Olsen, sister of the groom, and Miss Kathy Ross, friend of the bride, were bridesmaids. Dressed identically, the girls looked lovely in white chiffon frocks, with matching headpieces.

Our Troubled Car Makers

The automotive manufacturing and parts industries in Canada are in trouble, says Ralph Young of The Financial Post. They say they need help if they are to continue to operate and provide employment at even the current levels.

Production and sales have been on a steadily declining level during the last four years, as imports have increased.

And the industries claim that they are being forced to operate for individual parts.

Financial employment in plants of both the automotive manufacturers and their suppliers of parts and components has been dropping steadily from the U.S. and Europe.

Major's the picture: Imports from the U.S. and Europe have tripled since 1950.

Reduced sales of most models have resulted in smaller orders.

Government action is required, the industry says. The situation has gone beyond the point where the industry's renowned conservatism can cushion it the government.

BRUCCELLA ORIA CONTROL
IRVINGDALE CANTON

According to Alberta's Supervisor of Irvingdale Canton, Mr. P. H. Brabant, the possession of cattle raising to brucellosis tests at the Veterinary Laboratory has dropped from 105 to 27 during the last five years.

Efficient vaccination has greatly assisted in reducing the incidence of the disease. Of the 8,538 cattle tested in 1954 at the various community sales Mount View No. 49

Throughout the previous only five years were vaccinated to 25 in 1955 it is anticipated that the remaining area will become vaccinated during 1955. By then, Bitham, Elton, municipalities are granted as Federal Brucellosis Control Areas and others in the province of Irrawaddy, Canada. Under the Federal plan cattle in these areas are blood tested and reactors are slaughtered with compensation being paid to the owner. Federal testing is also underway in M.D. No. 49.

FALL FERTILIZE

with Elephant Brand

INCREASE PROFITS FROM STUBBLE LAND

Seed stubble land next spring and make bigger profits — simply apply Elephant Brand High Nitrogen Fertilizer this fall! Summer following is expensive — you still pay taxes on idle land and it requires gas, oil and labour for tillage. Lack of nitrogen — not oil and labour — is the prime cause of low yields from stubble land. Elephant Brand Nitrapill (Ammonium Nitrate) applied on stubble land this fall means more money from the crop you need next spring.

IT'S GOOD BUSINESS TO APPLY ELEPHANT BRAND FERTILIZER IN THE FALL

- You are not as rushed as you'll be next spring.
- Weather is more favourable.
- Fields are firmer, you travel faster.
- Fall and spring moisture carries plant food to the root zone.
- Plant food is there, ready for early use by plants.

Crops on Stubble Land need Phosphate too. An application of Elephant Brand 11-45-0 or 16-48-0 at seeding time will supply this vital plant food.

The FWUA met at the home of Mrs H Lagan on Wednesday, 14 November 1968. There were 14 members and one visitor attended. We are pleased to have our president with us once more. At the usual business meeting, discussion took place about Christmas gifts for the mentally ill and of worthy organizations. Our Mrs J Bell will look into the problem and report at our next meeting. A round robin letter was written to our former members Mrs Porteous and signed by the ladies. A thank-you note was read from Mrs Kuwien and Mitchell.

The hostesses, Mrs. E. H. and Mrs. D. County served a delightful lunch and Mrs. M. Boer won the tea prize. The meeting is to be held at Mrs. J. den Boer's on October 12. Mrs. C. County and Mrs. den Boer are hostesses.

Misses Anita and Rosemary were home at the picnic from their week. Anita left on Monday for her day. She will visit her sister, her uncle and aunt at Van Nuys, California.

Armstrongs Wed For 64 Years

By open house, well attended by old friends of the happy couple, the Armstrongs celebrated their 64th wedding anniversary in the Strathmore Hotel on Wednesday, Sept. 21. The happy couple, who have lived in the Strathmore Hotel since 1904, were joined in matrimony by Rev. C. H. Armstrong, a family friend, who presided at the altar. The ceremony was held in the hotel's ballroom, which was decorated with flowers and bunting. The happy couple were surrounded by family and friends, who gathered to celebrate the occasion. The celebration continued with a reception and a dinner. The happy couple were presented with a gift of a diamond ring by their daughter, Mrs. W. L. Armstrong. The celebration was a joyous occasion for all who attended.

Mrs Orla Pedersen Wins Free Trip For Two to Scandinavia

It couldn't have happened to better or more appropriate people. It is a dream true and very much appreciated by a few couples who live on their farms 5 miles north and 2 miles west of Standard. They are Mrs. and Mrs. Orla Pedersen.

Mrs. Pedersen was the winner of a plane trip for two plus all expenses to Scandinavia. The contest was sponsored by Canadian Western Natural Gas Co. at the recent Parade of Homes in the Riverwood community in Calgary.

To win the trip, Mrs. Pedersen's entry of 50 words, describing what features of a home built by Western Construction appealed to her and why, won over thousands of other entries.

Very significant was the fact that the Gas Company was able to make the presentation of their flash lighting ceremonies held in Standard Thursday night. Mrs. Pedersen didn't know anything about it until ten minutes before when she was invited to Mayor Madden's house and told of the good news.

According to Gas Co. officials, they worked many overtime hours to have everything ready so they could make the presentations at that time.

The Gas Co. had 14 Blue Flame homes in the contest and Mrs. Ped-

ersen entered a description of each one, but the winner was selected the Bennett Bloomington home. The presentation was made by Mr. Chuck Ross who is in charge of new business for the Gas Company.

The trip is for 6 days, but the Pedersens will remain in Europe to visit their relatives, for a longer period. They will leave in December.

Mr. Pedersen was born in Denmark where his father is still living, but hasn't been home for 36 years. Mrs. Pedersen was born in Standard and hasn't been there for 47 years.

It is wonderful, Mrs. Pedersen explained, we would never have been able to make the trip on our own, and we are sure looking forward to it.

Let's Get Newsy

Carol Mithen has started a secular cruise at Henderson's Building, College, in Calgary. Joy, as Mithen is also in Calgary, and is employed in the filing department of the Alberta Wheat Pool.

The fall has been one of the finest that many oldtimers can remember. We have had little frost, and the growth continues. Jimmy Swanson had three of the finest runs in full bloom; you ever saw at the front of his home, and Dutch Hansen had the same. Some homeowners say that their days are as nice now as they have been all year. It has been a wonderful year to enjoy flower gardens.

Mr. and Mrs. Ross know have taken over the operation of the Strathmore Hotel Cafe. The former owner, Mrs. Christensen has moved back to Calgary.

Your Public Library located in the school building is open to the public each Tuesday and Thursday from 2:30 to 4:30 p.m. and Saturday afternoon from 2 to 4. Mrs. Emma, library assistant, says, "Haven't this to read? Try reading some good book for half an hour a day and you will be surprised at the result."

Three Children Woolliams And Milne Meet With Council To Discuss Post Office

Every parent should read this with all seriousness. This story could have had a very end ending. Councilor Godfrey reported the following story at the regular council meeting on Tuesday night.

A half ton truck came down third street on Tuesday and there were three children about two to three years old, sitting on the right running board. The driver of course didn't know they were there. When he turned the corner at Railroad Ave. two of the children fell off the rear wheel narrowly missing them. One boy, received a head bruise. The third child, a little girl, hung on till the truck was almost to the highway where she fell off onto the road.

Mr. Godfrey went and picked up the child who was unconscious and brought her back to an ambulance. The truck driver was unaware of any of this, and carried on down the highway.

Another day last week, two of these children were underneath a car on main street. They had their head sticking out the side, and the driver was just going back up when a pedestrian yelled, just in time, and promptly saved their children's lives.

Then yet another day they were seen climbing up on the bumper of the Greyhound bus.

True car and truck owners have a great responsibility to our children, but surely parents don't escape the responsibility.

Final decision will be made in 90 days.

Mr. Milne explained that the government will pay the going price for property in any town. They will not set a precedent as to price high or low. He also explained that they do not wish to harm or favor any business by

placing a Post Office in any given location. The council is not at all their land dealings, he said.

Mr. Smith of the Post Office Department was in Strathmore Saturday, and said that they must have a location where the mail trucks may load and unload with the greatest amount of ease.

Mr. Milne praised the council for their efforts in obtaining a good site. He said that they wanted to satisfy all parties concerned and wished the council to guide them for a future location.

Council had a rush meeting Sunday and decided that the property to be sold to the Strathmore Hardware was their first choice by the Standard office second and at the Standard office third.

Mr. Woolliams was asked when the federal government planned to build the RCMP Barracks on the property they have in the subdivision and said that he promised that he would look into the situation immediately and try to get construction rolling as soon as possible.

Town Council

The regular meeting of the Strathmore Town Council was held Tuesday night with all members present.

Mr. Alton Wilson was present representing for the second time to purchase the two lots west of the Gas Machinery Sales to build a storage building for trucks and twice to use the balance for machinery storage. He is at present negotiating with the town. Council decided to table it for 90 days because that site is one that is under consideration for the new Post Office. They committed themselves to this last week.

Mayor Gray reported on a meeting he and Sec. Joe Thomas had with Mr. Jorgensen, Minister of Health and Welfare. They requested financial assistance for bringing the services across the Senior Citizens Home property on the way to the homes in the new subdivision. This was deemed impossible, because many towns have the same situation and they could not set a precedent. It was pointed out that the arrangements are for the towns to bring the services to the homes, and the Strathmore would have to do just that.

Councilor Godfrey said that the lack of water for the town is a 323 capacity instead of 700 which it was supposed to have according to the invoice. The contractor, Mr. DeForest, had been contacted, and they agreed to take it to Saskatoon to the factory at no charge to the town and exchange the tank. In the meantime, the town will obtain a truck from where they bought the truck from Edmonton to have in Strathmore while theirs is away.

Building permits were issued to Canadian Western Natural Gas for a home and office on 40th Street and a temporary office for the town on 40th Street. They requested they rebuild their service station which was ruined by fire some weeks ago.

The meeting was read from J. H. Faudette, Director of Service and Supply for the Dominion Government. He said that they wanted to start construction on the new RCMP building prior to March 31st but it was subject to the availability of funds.

The town's request to the A.I. (Continued on page 8)

The drive they have not for the big day, is Monday, October 17, and they ask that you all have your vegetables ready when the trucks call.

If you are not going to be home that day, or if you would rather, please have your vegetables ready for this very fine cause at Colis in Carsland.

Who May Vote

Elections will be held in Standard and Strathmore on October 18. The ballots are to be marked with an X in the spaces provided in case of Strathmore, you make three choices of the four candidates, the number needed to complete the council. In Standard there will be only two names on the ballot, and one candidate is needed so you only make one choice.

All newspapers may vote if they are of the full age of 21 as well as any Canadian citizen or British Subjects who have resided within the town or village for a period of six months prior to May 1, 1980 and are of voting age.

Golf Partners Get An Eagle

It was cool on Saturday, so the men and full foursome had but one or two entries. But the weather did not have any effect on this partnership.

Rev. Don Anderson and Mrs. Roger from Monksbury were played Mickey Jones and Neil Coster of Gleichen. On the seventh, Mrs. Rogers came within 130 yards of the 7 green, and the putting partner clipped his second shot right in the bag for an eagle 2.

The eagle gotters were the round, 69 to 85.

Standard

Mr. George Latham has been elected to give Logan a real feeling of the recent accident.

A large number of residents are now enjoying the convenience of natural gas. While the school's heating system was being converted, the people and teachers enjoyed a holiday. Several teachers and youngsters returned to Cheadle Wednesday afternoon, to help Janet Christensen celebrate her birthday.

Several Scandinavians attended the fire-lighting ceremony Wednesday evening at the CWFC Co. in the town of Cheadle. Mrs. C. J. Madsen addressed the gathering and read several letters from Scandinavians. Mrs. Madsen is a resident of the Scandinavians' country for two years.

It is understood that Mr. and Mrs. Pedersen will leave the week in Vancouver. They plan to spend Christmas in Denmark with their family. They then will go to Mrs. Pedersen's native country, Sweden, and then back to Scandinavia. They will be returning home the first part of January. Our best wishes for a most enjoyable and memorable time to both of you.

Gas Turned On At Standard & Hussar

The official arrival of natural gas was celebrated at Standard & Hussar 58 and at Hussar 57. They were 1000 gathered at Standard and about 10 at Hussar to witness the flow of gas from the regulator station.

Mayor C. Madson of Standard (pictured) the mayor for the time operation they had shown in the installation of mains and gas lines in our community. Chris Anderson, elder citizen of the area, depicted the value which the blue flame brings.

Mayor Stewart of Hussar had presided for the event and officiated in which the lines were installed and called on E. J. Bell, a distinguished elder citizen and former mayor for 20 years, to open the valve, initiated by Mr. Hussar of the Gas Company.

TOWN COUNCIL
Continued from page 1
beria Government for a picnic shelter for Lambert Park was refused because there was not enough room for cars, tents and trailers. It also stated that it was too far from the highway and that it was too close to one they have at Chertown Lake.

The resignation of Councillor McNeill was accepted with regret by the councillors. A letter of appreciation will be sent to him acknowledging his good work. The reason stated was because he felt he didn't fall in line with the idea of sitting members. Mr. McNeill was not at this meeting. It was thought that the irrigation water system will continue until the 10 or 12 of this month but it was left to the judgement of Councillor Godfrey who is in charge of that department.

Wedding

SANDERS — WILLIAMS

On August 18, at 7 p.m., Our Savior's Lutheran Church was the setting of a double ring wedding, when Ella Della Williams, youngest daughter of Mr. and Mrs. Stewart Williams of Hussar, became the bride of Mr. Wilmer Sanders, son of the late Mr. and Mrs. Herbert Sanders of Hussar.

Rev. F. W. Olsen officiated. The ceremony took place before a candle lit altar backed with yellow and mauve gladioli, carnations and sweet peas.

The bride, given in marriage by her father, looked lovely in a floor-length gown of lace and net over tulle. The groom, featured in light blue suit and a fitted jacket.

The front of the bouffant skirt had collapsed panels of lace while the back had deep-cups of gathered net. The waist length-trimmed with lace reached from a pearl and rhinestone on lace trim. The bride's bouquet was a small crescent of American Beauty roses with white streamers and red and white attached. She wore pearl earrings, a gift of the groom.

She was attended by the groom's sisters, Mrs. Elsie Van Herwerden, as matron of honor, and Mrs. Helen and Helen Sanders as bridesmaids. Miss Penny Lee Sanders, sister of the groom, was flower girl.

The groom was attended by Mr. Norman Sanders, Mr. Clark Van Herwerden and Mr. George Sanders as best men. Master Richard (Willie) was ring bearer.

The guests were ushered to their seats by Mr. Stewart Williams Jr. and Mr. Frank Bellin.

Mrs. Stewart Williams was organist and during the signing of the register, Miss (Gladys) Williams sang, "Oh Perfect Love."

Following the wedding, there was a reception for the bride and groom in the church reception room. During the reception, a telegram was read from Mrs. Martin Williams, of La Crosse, Washington. She is a great aunt of the groom.

There was a wedding dinner following the reception in the Community Hall. The bride's bridesmaids suggested the menu.

The Browns have been visiting us — looking at our hydro plants, our transmission lines, our thermal plants, at many of the phases of our work that together form a complete picture of our service. Yet here at home, in their own kitchen, they are seeing and using the most familiar expression of electrical energy. The Browns, like a growing number of Albertans, enjoy the modern, fully automatic,

convenient kitchen (and other home facilities) that only electricity can provide. This is the part of us most people know — in the home doing the countless jobs that make life easier and better.

We are happy to bring you the 20th century servant, electricity, in the most dependable and economical way possible.

NEW 1000 PREMIUMS

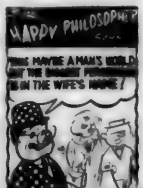

The old bonus of \$5 per head on Grade A and \$3 on Grade B has been changed October 3 to \$3 per head Grade A. This will not likely change the customary \$2 per cow for B's than A's and \$3 less for C's.

On a 150 to 200 head hog band of 20 cents per lb. on a average brings 130 x 25 plus 10 is 40.50 and a C 130 x 25 is \$32.75. John A. Hog brings \$4.50 more than a B, and 27.50 more than a C. Which isn't much on a single hog band, but counts up when one sells 100 hogs per year. This extra money for quality is especially important when pork prices are low and may be many producer's profit. A little more figuring shows that under the new bonus an average producer 25 percent A's will get less, but the man with 50 percent A's will get more.

A wrong guess on the weight of a hog costs \$4.50, but it takes only a few bad guesses to pay for a scale.

Tips on Touring

Want to save money on your next car?
You can - hundreds of dollars in some cases. The secret? Take good care of your present car to make sure you get the highest possible trade-in. The little money you spend now will be made up many times over when you trade it in.

Here are some tips on maintaining your car's appearance:
Give it a good washing at least twice a year. Pay special attention to areas under the doors to the joint of the door and fender, around the trunk lid, and to the drain lines around the roof. These are the spots where rust is most likely to form. When you're washing, remember chrome work. Have minor dents and scratches repaired immediately. Have rust spots touched up before they spread or get deeper. If your car's been through a snowy winter, have the underside cleaned in the spring to get rid of road salt.

Protect the upholstery with seat covers. You'd be amazed what a difference good upholstery makes when trade-in time comes.

Rubber floor mats are a good idea, too. They prevent wear of the carpeting. Most important, keep in front of the driver's seat. Get the kind with a waffle-weave pattern to catch dirt and pebbles and keep them from being ground into the carpet.

Finally, never neglect lubrication. Good mechanical condition can give trade-in value a real boost.

Don't underestimate your competitor, nor overrate your skill.

EDITORIAL

ELEVENTH DAY OCTOBER 11

There will be elections in Strathmore and District on October 18. It is always a pleasure to report that all the candidates did not go to by nomination, and we commend those who are running for a position. It is an indication that the local government is concerned in an active way and it reflects on the attitude of the candidates when they are voted in by the will of the people. Their work is a matter because it is more responsible.

Crime In Your Community

Armed Robbery is the subject of the current booklet prepared by the Royal Canadian Mounted Police under the general title of Crime In Your Community.

The booklet is the fifth in the series which was instituted several years ago in the belief that the volume of crime in certain cities

plan could be greatly reduced by separating the various of business establishments and the public generally with various sample measures by which they might safeguard their property from the various and themselves from the criminal before the intervention of the police became necessary.

Made up of illustrations in the booklet with brief explanatory captions, the booklet is devoted to the most lucrative targets of the armed robberies such as banks and business establishments, but the chapters say nothing on the part of the private citizen that he is immune from this type of crime. The booklet recommends the instruction of employees in points of physical identification and the exercise of constant vigilance on the part of all personnel to enable them to detect the behavior of suspicious-looking characters the bogus workman, i.e. the potential hold-up man. It outlines certain precautions by which robbery may be avoided, or at least made more difficult such as safeguarding money cash, not changing pay-roll or other cash delivery.

Rosebud

Mrs. Fred Morgan (nee Stinson) was married in the Rosebud Hall Saturday, October 1st Mrs. Bob Morgan passed a quiet time.

Mr. Morgan welcomed the bride and groom and expressed his pleasure that the bride's mother was able to attend even if she had to go to bed when she got home. She said she had known her bride since her childhood and felt she would take her happy disposition into marriage. Included in the very program she conceived, were a piano solo by Wendy (Mrs. Avel) and I'm on my Honey-moon and Our Best to You, by Mrs. S. Charman; recitations: Autumn Leaves and The Spring by Judy and Diane (Jenny); a monologue: Soap Bubble Pop by Mrs. Bob Camstock and vocal duets: My Happiness and Thy Old Mill, by Marilyn and Lenore Wilson.

Miss Margaret Bueh, a school matron, made the presentation. The bride was assisted in opening her many beautiful gifts by her mother, her sister Karen and her cousin Misses Anne Barker and Sharon McKellan. In reply the bride expressed her delight that her mother had been able to attend. She thanked the committee, but said Ruth for the garden flowers, so long after frost, and their contribution to the program. Individually mentioning especially the accompaniment whom she felt often are taken for granted. She invited everyone to call upon Floyd and herself in their new home in Hudson.

Situated at the head table with the bride and her sister Karen, Mrs. Chris Christensen, was her sister Karen, her paternal grandmother, Mrs. Bobbilda Christensen, her aunt Mrs. Ruth Burke and Sharon McKellan, her cousin, Sharon McKellan and Mrs. Anne Barker, her sister-in-law. Mrs. Bob Morgan and Mrs. Jack Sangster. The table was placed beneath an array of natural flowers and done in pink and white, outlined with tall white tapers. Special out of town guests included Mrs. Sangster, Mrs. Miller, Mrs. Reed, Mrs. Kynne of Calgary and Mrs. Helen Burke of Rockyford. Misses Green Beach, Thelma Clark and Darlene Fern and Marilyn Reva are in Calgary taking business courses.

New School, School Addition Discussed At Meeting

A special meeting of the Strathmore Home and School executive committee was held at Strathmore school trustees' Max Phillips, Friday afternoon in the school, to discuss the problem of more room needed for the school for the large class coming to High School in the future.

Mr. Ian McKenzie, school principal, explained that their are two rooms for all grades, from 1 to 9 and only four rooms for the high school. This year there are 54 students taking grade 8 which will mean approximately that many next year and the following in each room in the high school. This means two more rooms will be needed in the immediate future, he said.

Also the library facilities are far from adequate and it is feasible that a library who possibly would teach one or two subjects will be needed. He went on to say that in the school now, there are 10 or 12 children with low I Qs, who will never attain more than grade 4 or 5 level. There should be an Opportunity room with a teacher who could give them specialized training.

In our High School these students taking the Commercial Course can not obtain their diploma as this school does not complete the course. There is need of a Commercial room to complete this.

Mr. Phillips assured the meeting that he would not ask Strathmore without school facilities but he is also concerned for the tax payers.

There will be no H & S meeting Monday October 23rd because of Halloween, but watch for following meetings as this subject will be discussed. It concerns you in every aspect.

Married In Calgary

Thelma King (Chapel, Calgary) was the setting for the recent marriage of Mr. and Mrs. Louise Esau, daughter of Mr. and Mrs. Irene Daulton, Calgary, and Neil Douglas McMillan son of Mr. and Mrs. Neil McMillan, Calgary. Attending the bride were Mrs. Al Green, Miss Judy Marshall and Miss Carol Hinde. The groom's attendants were Dale Blue, Les Forrest and Don Brown. Mr. Hinde presided. The ceremony took place in the Orange Hall. Following the honeymoon to the Calgary United States, Mrs. McMillan will reside at 2850 Grant Crescent, Calgary.

Flyers Hop to Dim For League Play

The Flyers, Strathmore's Senior Hockey Club, are making an effort to get into the Calgary Senior League this year, but are not moving with much success to date.

Officials of the league were contacted and told that they would want their home games to be played in Strathmore. It has been the practice in the past for the Senior League to play all their games at the Corral. Declined would be teams from City Police, City Fire Department, Strathmore and possibly an entry from the RCAF.

The Strathmore proposal was brought up at a league meeting, but did not meet with much approval due to the fact that many of the senior league players have to get their own replacements during the time they are off to the time element. League officials R. Ross told THE STANDARD that however, that the Strathmore proposal would be brought up again.

He also said that they are having trouble getting ice for their league due to the fact that the Calgary Black Hawks organization are pressing court officials to promote minor hockey. This may mean that there will be no service league at all this year.

The Flyers could have entered the Big Six this year, but this was rejected due to the amount of travel involved, plus the fact that they thought that Big Six would be a little heavy for local paddlers.

Swimming Pool Tenders Much Higher Than Was Anticipated

The Strathmore Lions continue to have headaches regarding the reconstruction of the Swimming Pool.

They had two more estimates this week.

They called for tenders for the construction of the pool on behalf of the town of Strathmore. One tender was \$30,700 and the other \$34,532 which is much over the estimated cost by Geo. Wolf, who has been in charge of the project, from information gathered by the engineers. When the estimates were called the club was looking for a figure around \$18,000, a figure the club can handle. Now with these new developments, it has confronted them with a great financial burden.

In addition to this they are having trouble with plans. On August 26th, Mr. Bill Bailey of the Department of Public Health stated that they would approve plans without the dressing room for the time being, but now Mr. Bailey's position has been taken by another man, who has said that the club that he is charged current floor in the clothes changing area which will be additional expense.

Mr. Geo. Bell M.E.A. was contacted and he is going to talk with government officials regarding the situation and the results of these talks should be forthcoming.

It is hoped that the pool may be under the winter works program. Under this program, the federal government will pay 50 percent of the labor costs and the provincial government 25 percent.

Don Paul, Martin to speak to young liberals.

Minister of Health and Welfare in Canada, the Hon. Paul Martin will be the featured speaker at a Liberal dinner meeting to be held in Belcher on Saturday, October 21st.

The dinner is of a fund raising variety for the Row Herby Young Liberals society to Gordon A. Smith of Calgary, Provincial President. The dinner will get underway at 6:30 pm.

Proceeds will be used for community improvement.

Skating Begins November 15

The executive of the Strathmore and District Memorial Arena decided that they would start skating in the arena by November 15th. This was decided at their first meeting of the year in the Town Office Monday night. A caretaker was hired and skating soon started.

Seven applicants were in for the job as caretaker and it was decided by secret ballot that Herb Jones would be the man. He will commence duties November 1st to get the arena ready for formal skating.

A skating committee was formed composed of Bill Morgan, Alex Peterson and Robert Dumas. The executive would like some local interest to take on the position. They agreed to possibly send someone for some pushing up instructions to Calgary and then hire her or him for the winter. There will be no charge for children's instructions.

The fees were set as follows for the year. Family ticket \$25.00, adults \$12.50, High School \$10.00, Public School \$7.50 and pre-school \$5.00. Single skates \$5.00. There will be free skating for the school children at noon.

Due to the fact that the Senior Hockey Club games have been sponsored there has been a great deal of skating in the arena. This was explained, would only pertain to club games and private. It was pointed out that many who play for Strathmore have bought season tickets at the arena house and that if they paid the season ticket here it would be too much to expect when they give hockey fans a lot of

Thieves Ram Door To Enter

Thieves rammed their way into Walters Hardware early Friday morning, through the back door in the arena by November 15th. With the aid of a ten foot pipe that they found behind the store, they knocked the door off the hinges and pushed in an iron cross bar that was fastened by big bolts, and wrecked the door.

Walter Snook, operator of the store said that they made off with \$25 in silver, 30 boxes of 22 shells and \$15 worth of tools.

Fred Hillen, who lives across the alley from the store said that he heard what he thought was a car backfiring about 4 am and it thought that the noise could have been the thieves breaking the door down.

HCHS are investigating.

Barry and daughter, Mrs. Jack
McCormick, Miss Jean and Lis-
ette Fraser and Mr. T. Tweedy all
of Calgary, Mr. and Mrs. Tommy
Fraser, Stander, Mr. and Mrs.
Walter Kestner and Betty of
Calgary.

Seated beside the guest of hon-
or at the head of the long table
was her life-long friend Mrs. P.
Widely of Calgary. Before the
lusty chicken dinner was served,
each son in turn toasted his moth-
er in an original manner. One for
the wonderful life they had lead
me with his memories of his boy-
hood and yet another with me as
his mother's favorite son. Mr.
Bob Armstrong gave a heart-warm-
ing toast on behalf of the son-in-
laws present and Mrs. Tommy
Fraser paid tribute from all the
rest of the in-laws.

Grandma Barry responded to
everyone's toast by standing and
singing a beautiful old love song,
the one her husband sang to her
on their first date, many years
ago.

After dinner many members of
the family entertained with nov-
elty songs and dances and danc-
ing was enjoyed by all till the
 wee small hours.

Hussar

by Mrs. C. R.

The Hussar's Union put on a successful dinner Friday evening. Mr. and Mrs. Bell received the news of the death of their son, following a brief illness. The Bells went to Lacomb to be with their daughter, Roma, and family.

Mrs. E. E. Smith is making good progress with her recent operation and hopes to leave the hospital some time this week. Favour Olsen went to Medicine Hat to perform the marriage ceremony for Mr. Darrell Davis and Miss Paula Davis on Saturday. Mr. and Mrs. Leroy Pandey also went to the wedding. Their house served as an usher.

Mr. and Mrs. A. Gustafson of Calgary, visited at the homes of their son Axel and their daughter Mrs. S. Madson.

Many visitors from Calgary and Strathmore attended the marriage service at Our Saviour's Church when six young people of the community were united. They were: Nadene Gustafson, Betty Svensson, Henry Hansen, Judy Olsen, Richard Pedersen, and Stewart Williams. J. Fortunately, the weather stayed fine till late in the afternoon, when snow began to fall, driving a storm wind. There was a good layer of snow packed down by a recent blizzard, which has helped to lay the dust in the district.

The highway is being gravelled to a point five miles west of town and some gravel has been put on very spots to town.

The Jubilee Local FWMA held their annual supper in the basement of the Community Hall with a record crowd in attendance. The improved facilities in the hall made it very much easier to entertain and serve the meal. Many of the people stayed for the regular Saturday night movie which followed.

Mr. and Mrs. Harold Thew held their Christmas dinner for their family in November this year, before leaving on a trip to the west coast. Guests for the weekend were Mr. Bob Chaytor, Mr. and Mrs. Arnold Lee and Emily, Mr. and Mrs. Neil Campbell and boys of Millet. Also invited for the dinner were Mr. and Mrs. Melvin Thew, Mr. and Mrs. Philohary and family.

Mrs. Thew recently returned from a trip to Manitoba where she visited with members of her mother's family. Harold and Mary hope to take Mrs. Frank Thew along with them to California for a rest and vacation.

Obituary

A former Rockford and Strathmore resident, Frank Riddle, died on November 20, at the age of 80 years.

Born in Lagomieska, Wopatol, Hungary, he came to Canada in 1912 and moved to Strathmore in 1921. He was a farmer until he retired. He is survived by a brother, Chester Riddle in Germany, two nephews, Louis F. and Harvey (who now lives in Alberta) and a sister, Mrs. Alice E. Riddle. Frank Riddle was a member of the Rockford Masonic Lodge and the Strathmore High Mass was celebrated Wednesday in the hall of the Strathmore High Church in honor of his memory. Interment at St. Mary's Cemetery, Strathmore, Alberta.

Hussar Scouts Fund Drive Successful

The Hussar Scouts have been busy boys the last few weeks. After the middle of October they launched a fund raising drive collecting all the old hats in the district.

According to Assistant Scout Leader, Oliver Christensen who said in detail they have collected 250 of them. They must have nearly reached their goal. The hats are to be used for the winter.

Farmers and businessmen from Hussar Standard Chapter and Strathmore have been generous. They have been asked to contribute to the fund. The money will be used to buy food etc. for camping. They hope to get about 80 cents each for the hats.

There are 24 scouts in the troop and they all did their own collecting. Their leader is Jorgen Hovgaard of Chandler.

THE GOVERNMENT CAN DO ALL

The government can do all that is necessary to bring about a more equitable distribution of income and wealth. It can do this by increasing the tax on the wealthy and by providing social services for the poor. It can also do this by providing education and training for the young. The government has the power to do all these things and it should use this power to bring about a more equitable society.

**History Of St. Andrew's
Anglican Parish Started In 1785**
The Anglican Church of St. Andrew's in Strathmore has a rich history that dates back to 1785. The parish was founded by Rev. John G. Lamb, who arrived in the area in 1785. The church building, which is a fine example of Gothic Revival architecture, was completed in 1885. The parish has a long tradition of service to the community, and its members are proud of their heritage.

**INSPIRATION OF
"SILENT NIGHT"
AS STORM LIFTS**
The words of that famous carol,
"Silent Night, Holy Night," will
ring this Christmas in many dis-
tinct corners of the north in the
mountain towns of Oberon, Aus-
tralia, however, they will probably
ring clearer and more distinctly
for it was here, some 142 years
ago that the carol was sung for
the first time.

The background story of this
famous carol begins at a time
when, on the night of December 24,
1818, Father Joseph Mohr, then
priest, and his friend Franz Gruber, a
teacher, were in the town of Oberon.

NOEL
as in the days of
old, may the story of the
birth bring you great
comfort and enduring joy.

The two hurried on to the school

first time, the words of the carol
were sung in a melody and with
a meaning that there
would be no organ music there
they sang the melody simple one that
could be played easily on a guitar
Father Mohr never lived to see
the carol sung in the school
master's house.

1. Because of past government control and supervision, the school is already established. Hutterite education is very inadequate and often without a recognized standard. It is being presented to the public in the form of a booklet by the Cluny N.S.A.

2. Because of failure of the school program, the Hutterite community standards are well below normal, constituting a barrier to the democratic ideal in our country.

Minor Hockey

By V. H. BARNES

Some fast chess hockey was witnessed by a handful of fans of the local arena when the Strathmore Juventus came and on the last end of a 4-3 count against the visiting Capital City boys on Monday.

Only one penalty, to Calgary, was called by referee Hinton and Stevens in the final period.

Bob Naylor fired two first period goals and a 4-3 count against the visiting Capital City boys on Monday.

The Juventus netting will be at a four team tournament in December.

Three complete league games were played last week. The Strathmore Post-War and Bantam played to a tie all at the Central rink Wednesday night.

On Friday evening two Strathmore Post-War Bantam boys took a 6-1 trouncing in the first game but the Midwest Juventus skated to a 8-0 victory in the second encounter.

Len Kent is good for the Bantams. He played, surprisingly to keep the post and turn his skis.

There have not yet a pleasing record of hockey and deserve good support. Gladly watch the battles ahead of the rink for the last game.

WELCOME STRATMORE FEED SERVICE

It is always a pleasure to welcome a new business or industry to any of our towns. It is only a short time ago that we congratulated the Rockford Food Service upon its entry to that Village. Now we have an equal amount of pleasure in welcoming the new branch of the **WILLIAMS STEAK HOUSE** to the town of **WILMINGTON**.

Does the budget is a shortage

Thanks to the *disinterested* *laymen* and School, we will have an opportunity to express our opinions regarding the expansion of the Junior-Creighton School. It seems apparent to us that there will have to be something done in this regard because we have many children then open. The thing that we, when decided to build where and how much. You should have an idea of it. This meeting is not official, and the outcome does not necessarily mean that the Junior members will follow all suggestions but at the same time we think they will welcome public opinion.

Editorial Notes

Modern farm machinery is a vital factor in production, but farmers increasingly buy large amounts of a farmers capital. Very often it is not economic to own a big modern machine because there is not enough work for it 'but it sits up there or half runs most of the farm machinery, particularly the tractors, and the farmer has to pay for owning the machine, or he can operate it or in partnership with other farmers. The farmer's own assembly works best with machines which may be used over and over again, or at least a few days of time each as a pump, drive, irrigation equipment.

Imagine no teapots are fairly common, but it is not often you find a revolution in a tea kettle.
Some Watt did—and the world took a giant step forward, for in his tea kettle Watt overcame the steam engine that started the Industrial Revolution.
Canada, since that most enormous, has benefited from that revolution. Her industrial growth has given us one of the world's highest standards of living. Modern industries depend to a great extent on oil. Modern companies like Imperial have made oil available at reasonable prices wherever it is needed. Nice to see Glen Grant back in the lineup after a knee injury that kept him out of the game for several weeks.

There was a lot of Strathmore support in the Okotoks Arena. They were very loud and very enthusiastic.

They will now play the Northern Alberta playoffs for the Provincial Championship. They lost to Edmonton in the final last year.

How do I save?

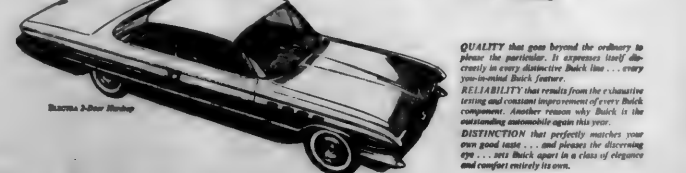

I'm a working girl, so saving isn't the easiest thing in the world. But I've found how to make it easier. I use the Royal's 3-Account Plan. I like the way it keeps my savings and my spending quite separate.

I use a Personal Chequing Account to pay bills. My Savings Account is strictly for saving. I'm really getting ahead, now I've stopped dipping into savings. They're building up, earn interest too... I work!

Gleichen
by Mrs. G.
The regular meeting of the Gleichen Chapter of the Order of the Eastern Star was held at the home of Mrs. E. Johnson. The attendance was just as large as usual because the residents were very busy with the projects. Mrs. E. Johnson conducted the meeting. After the regular business was completed a paper from the Head Office, on Education, was read. A short prayer was recited and a pleasant hour spent in song.

ELEPHANT BRAND FERTILIZER PAID FOR THIS TRACTOR

This is how we illustrate a basic principle - "It doesn't cost, it pays to use fertilizer." Fertilizer can provide the money for those many things you need to make the job easier or your family living better.

You make more money in two different ways when you fertilize with Elephant Brand. You grow better grade crops which sell for higher prices; you get greater profit from each bushel because it has cost you less to produce each bushel.

GROWING WHEAT?

You can make extra profits of 50 to 75 per cent and even more by fertilizing your wheat crop.

Here is an example of how fertilizer increases profits from wheat:

Increased yield per acre with ELEPHANT BRAND	10 lbs.
Value of increase (Wheat valued at \$1.25 per bushel)	\$12.50
Approximate cost of fertilizer (20 lbs. per acre at \$1.00 per ton)	\$2.75
EXTRA PROFIT PER ACRE	\$9.75

ELEPHANT BRAND PLUS VALUES

● Makes soil rich
● Feeds crops
● Fertilizes
● Is better than any other
● Is better than any other

Grades to 6 Will Rent Textbooks

Students in the Westford County to grade 12 to 12 have for a number of years been able to rent their textbooks and this has been extended to grades 1 to 6 as well.

This was decided by the Education Committee of the County at a meeting held last month.

The plan is to have a voluntary fund. Parents may rent or purchase their own books but the results of books through the scheme will be discounted.

It is planned to provide the primary school textbooks and work books at each grade level for one year and that books may only be rented in sets.

Textbooks and workbooks are provided to purchase books that are presently owned by the parents. The books are to be used in the school. Books are to be used in the school. Books are to be used in the school.

The Newer Steel Dam

The Old Horsehoe Dam

CALGARY POWER LTD.

SERVING THE PROVINCE OF ALBERTA

Here's a real saga of the old West, a story that fires the imagination of every Westerner. The building of HORSESHOE, the first major hydro-electric development in the West, is a story of courage and vision that helped to open up this country.

In the early 1900's the only source of hydro power in the West was a small 230 h.p. water wheel plant at the Eau Claire sawmill on the Bow River. However, in 1909 work started on HORSESHOE. Imagine the problems of excavating without modern power equipment. The only power was muscle . . . provided by 200 men with picks and shovels.

Cement came by rail spur from the Canada Cement Plant at Exshaw, and sand and gravel (150 car loads) was hauled in by rail to be fed to the cement mixers. Friendly Stony Indians dropped into the camp from time to time.

The trials and tribulations were many. At one time the complete coffer dam was washed out by a flood. Slowly, however, the dam took shape and on May 21, 1911 HORSESHOE was completed with a capacity of 20,000 h.p. Here is a lasting memorial to the courage and vision of the men who planned and built the dam.

50 YEARS

CALGARY POWER LTD.
SERVING THE PROVINCE OF ALBERTA

Cooking is older than recorded history... nearly as old as man himself. The use of heat to make food more palatable dates back to the cave-man's open fire. But to bring it a little more up-to-date, maybe you remember how your mother complained about the old coal and wood stove. True, it's warm but welcome in the kitchen during the winter, but not so welcome in the heat of summer.

How do I save?

When it comes to saving here's a trick worth knowing.
 Avoid writing cheques against your Savings Account.
 Responsible Not at all! Just open a Personal Chequing
 Account at the "Boys" and you'll be for paying bills.

Then you can keep your Savings Account strictly for saving. The bank calls this the 3-Savings Plan — a sure-fire way to save. It makes sense. It's business-like. And it's easy ... Why don't you give it a try?

Baintree

By Mrs. P. L.
On June 15th a special luncheon
at the home of Mrs. L. Baintree.
After members and our visitor, Mrs.
Baintree, conducted the well-attended
luncheon. After the luncheon it was
decided to send a delegation to the Calgary
Camp where education of future
farm leaders is conducted. The
annual tea will be held on August
10th at the Baintree home. There
will be a band and a large
catered lunch. The refreshments
will be a hot spread given
donated by Mrs. Baintree and her
sister. It was decided to send
Mrs. Baintree and her sister, Mrs.
H. Baintree, to the camp. The
next meeting will be on
July 15th at the home of Mrs. W.
Baintree with Mrs. Baintree
conducting.

It has been learned that Mrs. J.
G. Parsons has been in University
Hospital. Education for two
months after having been sick.
She will be in the city next week
for further treatment as we
thought it would be nice for her
and friends and neighbors to drop
in to see her.
Mrs. M. Anderson has been staying
at the home of her daughter Mrs.
Vogel for a week. After having
been in Calgary several days
for dental treatment.
After Angela Hicks and Mr. Gerald
Hicks attended the Prom at
Ved last evening.
Mr. and Mrs. Charlie Chausy left
Edmonton on Monday for New
York City and then on to
Atlantic City to attend the Lion's
Convention.
Several ladies attended the
Fashion Show in Strathmore last
Wednesday to see their daughters
and grand daughters as models.
Mrs. J. D. Wiggins and
C. County joined 15 other women
from Rockford last week and
returned to Strathmore for the
Lion's Convention. The ladies were
making square dances in
pinks with purple ties. The
Banquet Club and the men had
dinner at the club.
A sing party for Mr. Francis
Gibson, who is going to the
United States, was held on the
home of Mr. Howard County on
Thursday evening. About 50 women
attended.
Mrs. Hattie Edwards, who is
conducting the

by sold her home at Ouellette, spent
several days with Mrs. Baintree.
Lynn, returning old friends
also lived here from 1911 until 1921
also lived here. On a trip to
B. C. in 1911 to March River Oregon
and then to visit her brother in
Chicago.
The above ladies having been
members of the Kachessin women's
club in Calgary at Ouellette. Mrs.
Gerald Hines was one of the
members.

FUA President Calls For Help

Mr. Ed Nelson, President of the
Farmers' Union of Alberta, in a
letter to the members of the
FUA in Strathmore, said: "We
are in a very difficult position in
Alberta with grain harvest. A good
harvest has been made, but we
are unable to make much of the crop
area. However, important areas are
now being planted for the purpose
of this year. A favorable
crop has already formed. I would
like to have the members of the
Board would indicate the need for
materializing a good crop and
seed in various parts of the
province.
Some arrangement should be
made so that people turned to
Baldwin and the other should
have a capital resource account
set up so they will not be
hampered by unnecessary losses
from crop.
We are under the Provincial
Government to make up the
difference."

The play house shown above is designed for children from three to eight years of age and will keep them busy and happy.
It is made from six pieces of one half inch thick plywood each two feet wide by four feet long, hinged together so that the kids can push them around to suit the occasion, afternoon tea or an Indian raid.
Cut out the door and window openings and use loose pin hinges for the panels so that they can be easily taken apart for flat storage.
Paint each panel a different bright colour.

Denise Cretin Takes Vows At Unity

A very pretty wedding was celebrated August 12 in the Unitarian Church, Strathmore, when Denise Cretin, daughter of Mr. and Mrs. L. Cretin, took her vows. The bride was accompanied by her father, Mr. L. Cretin, and her mother, Mrs. L. Cretin. The ceremony was officiated by Rev. J. H. Martin, Minister of the Church. The bride wore a white gown and carried a bouquet of flowers. The wedding party included the bride's father, mother, and sister, as well as the groom's father and mother. The reception was held at the home of the bride's parents.

with a FOSTER BLOWER and WAGON

HERE'S HOW IT WORKS

Place them in your barn, outside only the draft and blowers in use. Or you can hang them in your barn and use them. Combine comfort and safety with no need stopping the cow.

HERE'S WHAT IT PRODUCES

Save space in your barn. The Foster Blower and Wagon will keep your cow warm and dry. The Foster Blower and Wagon will pay for itself in less than a year.

HERE'S WHAT BARNERS ARE SAYING

Don't let your cow suffer. The Foster Blower and Wagon will keep your cow warm and dry. The Foster Blower and Wagon will pay for itself in less than a year.

THIS IS THE ONLY WAY TO WINTER YOUR COWS

WITH NO HARVESTING

Don't let your cow suffer. The Foster Blower and Wagon will keep your cow warm and dry. The Foster Blower and Wagon will pay for itself in less than a year.

How do I save?

Easy come, easy go... that was me until now! But with marriage in the offing, I've become a serious saver. The secret? Two separate accounts: a Personal Chequing Account for paying bills, a Savings Account for saving.

"The Royal" calls this its Two-Account Plan. And it has proved to me I can keep my hands off my savings, can give them a chance to grow. It's a life-saver for serious savers. Simple. Sensible. And it works! Try it.

Efficient Feeding

AND LIVESTOCK MANAGEMENT
By Dr. James McLeod, D.V.M.
The efficient feeding of livestock is essential for the health and productivity of the animals. This involves a balanced diet of hay, grain, and supplements. Proper management of the feedlot is also crucial for efficient feeding.

Will Pelleted Hay Pay?

There is a growing interest in the use of pelleted hay as a feed for livestock. Pelleted hay is made by compressing hay into small, uniform pellets. This makes it easier for the animals to eat and digest. It also reduces waste and is more convenient to handle.

A FEW COMMENTS

Many of the comments on the editorial in the Standard of December 13, 1951, are of the nature of "I told you so" or "I knew it all along." It is not surprising that the government is not the only one who is responsible for the education of the children of this country. Letter To Editor

Dear Sir,

The Alberta Hail Suppression Association is presenting to the farmers of the Westland areas that the farmers who have carried the cost of the Hail Suppression project for the past six years, now urgently need the help of their neighbors to finish the job of establishing the ultimate prevention of hail damage and increase rainfall by 50 per cent. This support will make possible more aircraft, improved observation from high-flying aircraft with lower costs and is a necessary step to make possible them from making potential values to the whole of north Central Alberta at two-thirds of the present cost over large areas. The minimum potential value to the farming community of Alberta amounts to 200 million dollars per year.

We are indebted to the Dept. of Transport for permission to present the map of major hailstorms in 1931, they prepared, which demonstrates progress made to date. Farmers will not be happy until hail prevention is achieved, but we have more reason now to believe the maintenance of controlling hail can be overcome than we have ever had any reason to believe would be possible.

What about these possibilities that are of such critical importance to every farmer today? Dr. Elstner, Alberta Government appointee to the Hail Studies Group visited to Mr. Kiser and myself on February 26, 1931 he had even more faith than we had that silver iodide seeding would control hail. The Council even have a paper from Russia on cloud seeding, wherein early incandescent seeding with silver iodide produced strong evidence that hail could be controlled. This is the same method being developed by Krick Associates in its project.

In Dr. Elstner's opinion, no matter how severe the early disappointments are, the work should go on until the problems are solved. He, of course, realizes we should have government support for this very important practical work, as also does our Minister of Agriculture, Hon. Mr. Haincourt. Undoubtedly Dr. Elstner cannot be heard over the voices of the members of the NRC at McGill University to whom the negative forces in the government give full ear. These believe nothing should be done to learn through practical means until years of research have established all answers.

This is the opinion of other authorities.

Admiral F. A. Berry, scientific advisor to President Eisenhower's Advisory Committee on Weather Control gave his opinion the proper way to tackle this thing was to go ahead with the engineering approach and as basic research finds out more crank the new knowledge into the engineering program.

Dr. Joseph Kaplan, later head of the US Geographical year, stated in a report of 1934, Quote: "It is as much meteorologists suggest on delay, have made attempts to apply cloud seeding for the control of precipitation we will be acting in a way which contradicts the methods of all other areas of applied science." This is one of the secrets of Dr. Krick's success over official scientific straining resistance. We all know all the planning in the winter won't put our eyes in if we don't get out of our armchair and into the field in the spring.

It is unfortunate the recent series in the Albertan at this time, on the very advanced research in atmospheric physics by Dr. Krick and his Associates, that have produced results far beyond any other group in the world.

It may well be that when the US Weather Bureau makes its announcements at the California Institute of Technology, and Dr. Krick is there, that we will be moving in his in-scientific ways, his renders in

perform." This prevented the research of these men from being tagged down in bureaucratic red tape and forced them out into the commercial field for financial support, to utilize and develop their special talents. How results must be obtained if support is to be maintained. This means research under a forced draft that would not fuzzy ideas and gets results.

We welcome the farmers of the three townships on the west side of Rockyview, who have petitioned to join the project and give it their financial support. They realize how much is at stake, not only for themselves but for the whole of Alberta. This program urgently needs and deserves increased support. Nothing is so important to farmers of Alberta than increased rainfall and reduced hail.

The money we vote this year is far more important to us than any yet spent, because it utilizes all the experience gained to date. Every time applied experience saves a man a crop, he has saved enough to cover the cost for 30 years. Increased rainfall evidence is enough gravy to everyone that will, in the long run, be the most valuable in the overall project. The total evidence available, gives us every reason for confidence that if a sufficient number of farmers will stand together on this matter of such tremendous importance we cannot fail to make this land a garden of Eden for ourselves and our children.

J. T. Bishop,

Chairman of Kriebell Hail Suppression Association.
